

J. HOWARD TURNER COMMITS SUICIDE

NEW COURT CHAMPION CROWNED

Miss. Wills Defeats Mrs. Mallory In Straight Sets, 6-2 and 6-1

BLUSHES AS HUGE THRONG APPLAUDS

Seven Time Title Holder Falls Before Smashing Game of Opponent

(By United Press Leased Wire)

FOREST HILLS, N. Y., Aug. 18.—Little Helen Wills, the California star, became the American woman tennis champion here this afternoon when she defeated Mrs. Molla Mallory, seven-time champion, 6-2 and 6-1.

Seldom has an ovation been given in sport like the tumult from 5000 spectators that arose when the pretty little California girl scored the winning point on a beautiful placement.

The crowd rushed out of the stands and surrounded the blushing miss.

Kisses Winner

Eddie Conlon, the broad shouldered umpire, jumped out of his chair and ran to the girl, giving her resounding kisses on both cheeks.

Mrs. Mallory, gracious in defeat, put her arms around her conqueror and walked to the side lines.

Up in the canvas covered press stand the mother of the new champion wept with joy.

The ovation lasted five minutes. Its volume increased as a tribute to the fallen champion when she left the courts and walked toward the clubhouse.

Miss Wills was surrounded by a crowd that tried to get her upon their shoulders. Several husky policemen came to her rescue and cleared a way so that she could get to the arms of her mother.

Convincing Victory.

The victory of the California girl was convincing. Playing superb tennis, she outclassed the champion at every stage of the match, outplayed, outthought and outstrokes her opponent.

Mrs. Mallory was thrown completely off her game. The superior stroking of her youthful rival forced her to run wildly over the whole court, like a novice.

The champion all through the match showed she realized she had reached the end of her long reign. She stamped her feet, shook her head and gritted her teeth when she was forced into ba errors, but she smiled gamely and nodded in recognition of the superior playing of her opponent when Miss Wills scored placement after placement.

Never Had a Chance.

From the start to the finish it was little more than a romp for the California girl. Mrs. Mallory won only two games of the first set and she was lucky to win one of the second.

The score, first set: Mrs. Mallory .714 0 10 0 4—17—2 Miss Wills .541 444 46—32—6

Second set: Mrs. Mallory .031 5 14 2—16—1 Miss Wills .543 4 64—30—6

Miss Kathleen McKane and Mrs. B. C. Covell, British team, won the American doubles championship, when they defeated Miss Eleanor Goss and Mrs. Hazel Wightman, 2-6, 6-2 and 6-1.

GRANT AMNESTY TO PRIESTS IN RUSSIA

(By United Press Leased Wire)

MOSCOW, Aug. 18.—The council of peoples commissaries today granted amnesty to all priests imprisoned for declining to deliver church treasures to the government, except the Catholic archbishop, Czeplak, and his most important lieutenants.

However, the United Press correspondent learned from a reliable source that amnesty probably will be granted Czeplak and his supporters by a special decree to be issued later.

Three Dead as Teuton Reds Battle Police

LONDON, Aug. 18.—Three communists were killed and eight wounded seriously in a clash between reds and police in Datteln, Westphalia today, according to a Central News dispatch from Berlin.

The rioting occurred when police attempted to break up a communist mass meeting, called in defiance of police orders to protest against arrest of the red leaders as a result of yesterday's outbreaks.

Strong police detachments were patrolling the streets of Datteln to prevent renewed disorders.

HALT SEARCH FOR MISSING L. A. VESSEL

Coast Guard Cutter Fails to Get Trace of Ship Lost with Crew of 20 Men.

SEATTLE, Aug. 18.—All hope of ever locating the lost barkentine Alta, now months overdue at Seattle from Los Angeles, was given up when the coast guard cutter Camoro returned to Astoria after searching the Pacific for a week in a vain effort to locate the missing vessel.

One week ago a derelict was reported floating bottom up in the Pacific. The Camoro immediately put out from Astoria in an effort to locate her. It was in command of Captain Smith might be the Alta.

No trace of her was found.

The Alta carried a crew of approximately 20 men. She was in command of Captain Charles Sexon who was accompanied by his wife and two children.

TYphoon TAKES HUGE TOLL IN CHINA PORT

(By United Press Leased Wire)

HONG KONG, Aug. 18.—The wild typhoon in the history of Hong Kong bay was abating here tonight as authorities checked over damaged shipping to ascertain the extent of the disaster.

Available reports indicated that only two important ships had been sunk, the British submarine L-9 and the steamer Loongsang. Many small boats were destroyed, however, and it was feared the total of the death toll would be high.

Late reports said all members of the submarine's crew were saved, but that the entire crew of the Loongsang was missing and probably all were drowned.

The disaster brought forth many deeds of heroism. A sailor was clinging to the L-9 as she went down, but was saved by a mate from a nearby warship who leaped into the boiling seas with a life-line and grasped the drowning man. Both were pulled safely aboard the warship.

The Loongsang was swept from her anchorage and pounded to pieces by the heavy waves. Watchers saw a part of the crew attempt to put off on a life raft, but they disappeared.

Scores of small boats were swamped or crushed by the giant waves and a number of steamers driven ashore.

France Agrees to Cancel Part Of German Debt in Latest Note

PARIS, Aug. 18.—Premier Poincaré's reply to the British reparations note will agree to cancel a part of the German debt to this country, if an equal amount of the inter-allied debts are cancelled, it was understood here today.

Otherwise France will insist upon following out the arrangement of May, 1921, for distribution of reparations and amounts to be collected from Germany.

The reply will confirm the French demand for a minimum of 26 milliards of gold marks, which would make the total German debt about 50 milliards, even after compensation for the reduction in the inter-allied debts.

With Poincaré's reply to the British reparations note completed and reported ready for delivery in London early next

California Girl Wins Title P. E. CAR KILLS FOUR

HUGE SAVING AIM OF NEW FUEL PLAN

Ford Chemists to Produce Gasoline, Oil, Coke From Coal

(By United Press Leased Wire)

NEW YORK, Aug. 18.—A method of burning coal twice and thus materially reducing cost of automobile manufacturing has been perfected by a firm of New York chemists and taken over by Henry Ford, according to Emile Piron, who with his associate, V. Z. Carachristi, conducted the experiments.

One of the principal by-products will be gasoline, which can be produced at an estimated cost of 6 a gallon.

Each ton of coal burned by Ford under this process will produce coke (with which he can make his own steel instead of buying it, as at present), motor gasoline, lubricating oil, fertilizer, creosote, gas and grease, Piron said.

Financed by Ford

The experiments which resulted in today's announcement of success were made in a laboratory in West Virginia and were financed by Ford.

The next step is construction of buildings at the Ford plants in both the United States and Canada, where the cheapest grade of coal will be used.

It is estimated that the cost of making cars will be so materially reduced that it will be possible to reduce the cost of building new irrigation works.

Will Reduce Cost

The cost of motoring will be further slashed by the production of cheap lubricating oils and grease.

In other words, as each "flivver" goes through the factory its gasoline, oil and grease will be manufactured as a side line at hitherto unheard-of prices.

Ford is understood to be figuring on using coal from his own mines in West Virginia, transporting it to his plants over his own railroad lines.

Explains Methods

Piron, in explaining the new method, said that it was really in the nature of an improvement over existing systems. Coke has been produced from coal for many years and there have been repeated efforts to obtain additional by-products, but with indifferent success.

By the Piron-Carachristi method the coal will be distilled at much lower temperatures than heretofore. Under heat coal gives off various gases. These gases, when cooled, may be condensed into liquids. This, in brief, is the nature of the process.

Fire Destroys \$6000 Yuba Prune Plant

YUBA CITY, Aug. 18.—Fire destroyed the prune plant of Mrs. Carrie E. Coe, near here, with a loss estimated at \$6000. Insurance on the plant had expired the day previous. The plant had been put into condition to begin work on prunes in two weeks. It was equipped with modern graders and dippers and in the building were stored 3000 trays and 500 boxes. The cause of the fire is to be investigated.

Place Ban on Foreign Fruit Pest

WASHINGTON, Aug. 18.—A general embargo on the importation of fruits and vegetables into the United States, except from Canada, was announced today by Secretary of Agriculture Wallace to become effective November 4.

The embargo was laid down to prevent the importation into this country of fruit and melon flies, which have been reported to the department as ravaging fruit producing countries of Europe, Asia, Africa, Mexico, Central and South America.

EFFICIENCY RECLAMATION CHIEF'S AIM

Secretary Work Announces Plan of Co-Operation with Farmers on Big Projects.

WASHINGTON, Aug. 18.—Secretary of the Interior Work today announced the policy to be followed by the reorganized reclamation bureau of the interior department.

Inculcation of business principles into the operation of existing reclamation projects and in the construction of new projects is its keynote.

All project managers and engineers of the bureau are called on to bring about the greatest possible efficiency both in assisting the farmers in selecting, raising and marketing crops and in reducing the cost of building new irrigation works.

It is estimated that the cost of making cars will be so materially reduced that it will be possible to reduce the cost of building new irrigation works.

(Continued From Our Last Issue) But John Hannon was grimly with Clednenning, hand and heart, it seemed.

CHAPTER XV

On the Rim of Mesa Grande
VAL HANNON rode the range-
land constantly. Born to the
open and the saddle as she was,
she seemed filled with a keener
restlessness than usual, a more
poignant drawing to the sweeping
levels.

For John Hannon's blood was
stirring in her and she had found her
star. She had raised her innocent
eyes to it in the peculiar idol-
atry of that strange staunch blood
and forever after she would
know no other light. Horse—friend
lover—Val Hannon would be true
to them as simply as water to its
level. So she rode among the
mesas and dreamed her dreams,
and always she listened for a rider's
coming from the immeasurable
distances, searched the south for him.

And who shall say but that Velantrie, fighting his inner battle
far away, drawn desperately by
the triple lure of beauty, purity
and honest love, felt the lancing
of her heart, the call of those
warm brown eyes? At any rate he
came again, on a windy golden
day, and met the girl by the Antelope
—and they had scarce need
of speech.

They rode together with eager
outstretched hands and eyes that
searched each other's faces with a
grave, fierce hunger.

"Val!" said Velantrie, softly, for
the first time using her first name,
even in his thoughts. Val did not
answer, though her every nerve re-
sponded to the word. It seemed
that for once in her life there was
a fog of joy within her throat.

She held hard to his hand, and
looked at him—just as her father
looked at Belle. It was a pity that
Belle Hannon could never see that
look on her husband's face. Velan-
trie was more blessed.

"Ride with me," said Val, pres-
ently. "I want to show you my
country—some of our springs—
and Mesa Grande."

And Velantrie, the strong, the
man who mastered his own desires,
turned with her, weak as water in
this one girl's hands, and rode
with her openly across the plains.

So they went by Whitewater,
boiling above its silver sands,
stopped to drink and loiter by its
sentinel trees, then on again to the
Mesa Grande.

"This has always been a secret
place for me," said Val, quietly. "I
have come here always. It is so old
and so still, so high in the sky,
as if it is just under the feet of
God and I sometimes fancy I can
hear the angels' wings sweeping
about the cliffs."

They dismounted and leaving
the horse to stand in hip-deep
rest, walked here and there among
the crumpling huts of a lost, for-
gotten people.

It was mid-afternoon and the
drowsy heat was tempered by a
soft wind from the south. Where
the central hut stood large among
its fellows, they stopped again and
Val sat down, her booted feet
crossed under her, and took off her
hat. The hair was sweated on her
temples and the man's eyes caressed
each little pasted curl. His fingers
twisted with the age-old ache to
sooth them black, to touch the fair
forehead beneath.

He rolled a cigaret instead and
leaned against the wall.

"This was the council-house,"
said Val, "where the headmen
gathered. It must have held a des-
perate council that far-off time when
the enemy was coming up the cliff—
I'd have liked to see those grim
dark faces when they decided on
the long leap for all their race."

"Look at mine!" said Velantrie
with such sudden sharp bitterness
that the girl caught her breath,
glanced up with startled eyes.

"What do you mean?" she said.

Velantrie, "sometime of the
Border," threw away the cigaret
and sat down opposite her.

"What I said. Look at my face,
Miss Hannon, and you will see the
same desperate decision—for myself.
Long ago I tried to make it—and
for the first time since I can
remember, failed. In all the great
crises of my life I have been able
to command myself—until—lately.
Always I have prided myself on
my inner strength. Now I find I
am not so strong as I had thought
—that is, that I have not been.
I am deciding now—today—to 'build
well' like our departed friends of
the old huts here. I, too, have a
leap to make. Help me to make it,
Miss Hannon."

The smile that curled his lips
was tender, but the look in his
blue eyes was growing hard, like
a martial flame struggling up to
light a marching army.

"Too long I have dallied in this
country," he went on, "I have
wronged you, and Father Hillaire
and—myself—in staying here-
abouts."

Val wet her lips and listened
gravely.

Velantrie laid aside his heavy
hat and wiped his face with a
hand that was not quite steady.
The lines of his features seemed
to sink deeper in, as if he stood to
his task with an effort.

"I am a man forsaken to blood,"
he said presently, "a man whom
all the Border knows. I am a thief
and a bandit. I have raided and
pillaged for four years now, and
my hand has been against the
wealthy. I have a band of men
who swear by me, hard characters
all, and they follow me for the
shares I give them of my ill-gotten
gains. I hate them all to a man,
almost, but I must have them."

He paused and looked hard in
the girl's eyes. They were steady
as harbor lights, though the blood
was slowly draining from her
cheeks.

"Is that enough?" he asked brus-
tally.

"No," said Val Hannon, piteously,
her fingers gripping the brim
of her hat, "it is not enough."
"Then by heaven!" cried Velan-
trie, leaping to his feet, "I'll tell
the authorities her."

BLOOD TRAIL IN
'PLAY' KNIFING
UNDER PROBEWarehouses Burned in
\$65,000 Conflagration

SACRAMENTO, Aug. 18.—Four
large warehouses, twenty freight
cars and several hundred sacks of
grain were destroyed in a fire
along the river front in West Sac-
ramento. The total loss was in
the neighborhood of \$65,000.

The warehouses were the prop-
erty of the Sacramento Products
company, and for the most part,
were filled with hay. The loss to
the warehouses and the hay was
approximately \$20,000.

The foundry of the Sacramento
Novelty works also was destroyed.
The loss being estimated at \$10,
000.

The twenty cars lost in the fire
were owned by the Sacramento
Northern Railroad company and
was the only property insured.
The origin of the fire is unknown.

BLAZE REVEALS
BOYS' SECRET
ON 'FAGS'

Certain small boys of Santa Ana
who have been indulging the habit
of smoking various and sundry
kinds of tobacco today were suf-
fering the pangs of remorse.

Their clubhouse at 701 East Fourth
street gave up its secret in a fire
last night according to a report of
Fire Chief John Luxembourger
filed with the district attorney and
brought to the attention of the city
police.

A alarm was registered at the
central fire station here at 7:30 p.
m. yesterday. The firemen found
the roof of a small shed in back of
the East Fourth street lot burn-
ing. It was extinguished without
damage to adjacent property.

In making explorations for pur-
pose of report, Chief Luxembourger
said he found several sacks of
tobacco, and other smoking ma-
terials in the hut, which had been
used as a boys' clubhouse.

The fire was traced to a 13-year-
old member of the club, who had
playfully built a fire on the roof of
the institution. He was due for an
interview with the police late to-
day.

Fire Chief Luxembourger said that
he would recommend a campaign
against small boys carrying
matches, as such conduct greatly
increased the city's fire hazard,

County officers and employees
held their annual beach picnic to
day. The only reason they don't
hold more picnics, according to Dr.
F. W. Slabaugh, county purchasing
agent and president of the associa-
tion, is because they cannot think
of any other excuse. Beach, moun-
tain—an annual out-on-the-ocean
picnic probably will be next, he
was cause of the fire.

Chief Luxembourger said but a
small part of the damage was
caused by work of the firemen.

"We did not use a big line into
the house," the chief said, "nor did
we use more than sufficient chemi-
cals to extinguish the blaze. The
house had been kept closed and the
heat generated by the neglected
iron caused a rapid fire, and con-
sequently rapid damage."

Plans for the county-wide cam-
paign which were temporarily
dropped after the city election,
have been revived and active work
has been underway for a number
of weeks in preparation for the
county campaign a year from this
time.

Agreement on candidates is now
being arranged by the leaders of
the Adams-Tibbitts faction, Dr. C.
E. Stauffer, mayor of Needles, may
be selected for supervisor from
the first district, in order to secure
the support of the Needles political
organization in which Dr. Stauffer
takes an active part.

Locally the fight by the Adams-
Tibbitts faction will be directed
against A. G. Kendall, chairman
of the board of supervisors, should
he decide to be a candidate again.

"You are that man," said Val
clear-eyed. "There is no other."

"No. You've made me weak as
water. I've lingered here when I
should have been gone long back
on the restless quest I've followed.
Now I must be gone again. The
clue I followed here has seemed
to vanish in thin air, anyway, the
clue of The Meteor."

"The Meteor? What's that?"

"The horse I told you of one
day—the tie-winnin' of The Comet.
The man I'm hunting for is the
man who stole this horse—that
black day across the Mexican Border
which made me what I am."

"You are that man," said Val
clear-eyed. "There is no other."

"No. You've made me weak as

The new ruling said:

"Candidates for the elementary
school certificate who hold normal
school, college or life diploma,
and who have completed at least
two and one-half years of training
beyond graduation from high
school, may be granted, by the
state board of education, a limited
certificate to Eastern teachers com-
ing to California to fill positions who
failed to arrive here before August
1, according to the bulletin issued
by Will C. Wood, state superin-
tendent of instruction.

Heretofore Eastern teachers com-
ing to fill California positions have
been compelled to complete certain
school units, which may be gained
through summer school, before
teachers' certificates were granted
by the state board of education.

The new ruling said:

Established, November, 1905; "Evening
Blade" merged March, 1918.

KFAW

The Register Radio
Broadcasting Station

Owned and Operated by The
Radio Den, Grand Central
Market

PROGRAMS:

4:30 to 5:00 p. m. daily, except
Sunday, (268 meters). Late news bulletins, sporting
news, and musical numbers.
4:30 to 5:00 p. m. Mondays
and Thursdays (268 meters). Late news, sports and Agricul-
ture.

6:30 to 7:30 p. m. Mondays
and Thursdays, concert pro-
grams.

All phonograph records
played daily at The Register
concerts furnished by Carl
G. Strock. The excellent
piano and an Edison phonograph
were also furnished by
Mr. Strock.

Working from Los Angeles as a
starting point, the Orange county
authorities were today endeavoring
to pick up the trail of E. J.
Koerner, wanted here on a charge
of obtaining money under false
pretenses, following the asserted
collapse of a bold transaction in
building leases and the related pro-
posal to erect a ten-story building
in Santa Ana.

Last heard from in Los Angeles
was the origin of a telegram sent by
Koerner, it was said, to M. Eugene
Durfee, Anaheim and Fullerton
architect, Koerner appeared to have,
temporarily at least, eluded capture.
Sheriff Sam Jernigan stated
today that no trace of him had yet
been uncovered.

The telegram, received Thursday
by Durfee, announced, it was said,
that Koerner would be in Anaheim
Friday. Durfee planned a confer-
ence with Koerner then, with refer-
ence to half interest Durfee
claims to have purchased in a lease,
procured by Koerner from the W.
F. Lutz interests, covering the cor-
ner of Fourth and Bush streets,
Santa Ana. Durfee stated that he
paid Koerner \$1375 upon the lat-
ter's representations that he had
paid \$2700 for the lease.

Information received subsequent-
ly by Durfee, it was said, to the
effect that no money had been paid
on the lease, and that Koerner's
negotiations for an adjacent lease
fell through when a \$3500 check,
said to have been tendered by
Koerner for the lease, was found
it was alleged, to be worthless,
aroused Durfee's suspicions regard-
ing Koerner. When Koerner, so it
was stated, failed to appear in Anaheim
yesterday, Durfee filed the
criminal charge.

"If the road between Santa Ana
and Long Beach were better I
would come here often," Governor
Friend W. Richardson told G. A.
Schweiger, manager of St. Ann's
Inn. The California executive
dropped into the Inn late yester-
day afternoon. "I enjoy an occa-
sional visit to Santa Ana and St.
Ann's Inn," the governor declared.
"Bad roads have robbed me of
many visits."

Masons of Santa Ana, Long
Beach, Los Angeles, Fullerton and
other cities will be in attendance
at Masonic temple here tonight
when a local pyramid of the
Ancient Order of Scots is instituted.
Dignitaries from Northern California
and a forty-piece band from
the Los Angeles pyramid will lend
to the occasion. Dr. Roy S.
Horton is toparch of the Santa
Ana pyramid, which will have a
charter of membership of 75 or
100.

**THREE WOMEN
IN SCRAMBLED
DIVORCE ROW**

SAN FRANCISCO, Aug. 18.—A
pentagon, instead of the usual
love triangle, in which two
couples and the daughter of one is
engaged in the cross-fire, is the
latest development in the already
much-mixed matrimonial affairs
of Andrew L. Kerr, wealthy local
business man, and the wife who is
now suing him for divorce, Mrs.
Leonora Kerr.

The participants in the contro-
versy besides the Kerrs are Mrs.
Fredrika Heath of Newport, R. I.,
the pretty young divorcee whom
Mrs. Kerr is alleged to have
struck while attacking her hus-
band with a whip when she found
Kerr dining with her in a down-
town restaurant, and Mrs. Heath's
mother and stepfather, Mr. and
Mrs. George J. Wallace, 116 Gladys
avenue, Piedmont.

The first hearing in the divorce
suit of the Kerrs began in the
court of Superior Judge Trout.
There during the entire morning
Mrs. Kerr listened to an account
of her alleged intimacies with E.
R. Shelton, a local business man,
as testified by J. A. Frye, 1080
Bush street, a friend of the Kerr
family. Frye testified that shortly
after the marriage of the Kerrs
in August, 1917, Mrs. Kerr berated
Kerr's father because he had
caused trouble between the couple
and spoke of him as a "d-
old Scotch tightwad."

Frye also told of a dinner party at a beach
resort where Mr. and Mrs. Frye,
E. R. Shelton and others were
guests of Mr. and Mrs. Kerr. Kerr
in July, 1921. During the course of
the party, he said, Shelton and
Mrs. Kerr exchanged a long, linger-
ing, warm kiss." Frye said
when he once asked her why she
did not divorce Kerr, Mrs. Kerr
answered: "Divorce him, with that
father of his about ready to leave
him all that money? I should say
not."

Mrs. Heath said while seated in
the office of her attorney, John
S. Hogan, that Hogan is preparing
to file suit for divorce for Mrs.
Heath's mother, Mrs. Wallace, at
the conclusion of the Kerr case.

According to Mrs. Heath, her
stepfather, George J. Wallace, is
another good friend of Mrs. Kerr,
and will be named by Kerr in his
counter-suit against his wife.

Hearings will be held at Reno
early in September, at which repre-
sentatives of silver producers in
the United States, Canada and
Mexico and South America will
discuss the questions raised by the
inquiry.

**Prize Egg Layers Keep
Ranks During Contest**

SANTA CRUZ, Aug. 18.—The
report for the tenth month of the
California farm bureau egg laying
contest, being held under the aus-
pices of the poultry division of the
University of California, shows
that the lineup of high pens re-
mains very much as it was at the
end of June. L. A. Thornhill still
leads and Wire & Son remain in
second place, but Levi Mellon has
jumped from tenth place to third
place in average production
through the loss of his low hen.
Through Mellon's move up, Alex
Stewart drops one notch to fourth
place. D. B. Walls has also dropped
from fourth to eighth position,
and Hollywood and Sunrise
Poultry Farm have exchanged
places. Two new names among
the first ten pens this month are
those of the B. C. Young & Co.
and St. Johns Poultry farm, which
have moved up to seventh and
ninth places respectively. The
whole contest flock is still making
excellent headway as evidenced
by the continued good production.

"With usually good weather
conditions its effect should be even
more noticeable when another year
comes and trees have had a chance
to raise only a crop of oranges
instead of trying to raise both
oranges and scale.

"Through San Bernardino county
there seems to be an optimistic
note in the voices of the majority
of growers. More attention is being
paid to the needs of their
groves, which are receiving more
fertilizer and better care than in
the past. There is a noticeable
shortage of sucker wood, which is
being weeded out as fast as it ap-
pears."

PRICES TOO HIGH

LOS ANGELES, Aug. 18.—Leon
Cohen, bootblack, charged fancy
prices for shining fancy shoes, ac-
cording to Judge Richardson here.
He was fined \$25 because he
charged a customer \$35 cents for
cleaning a pair of white shoes with
black heels and toes.

**SEEK 'BUILDER'
OF TEN-STORY
SKYSCRAPER****Young Woman Weeps
When Speeding Auto
Halted By Motorcop**

Cited to appear before Justice J.
B. Cox next Wednesday morning,
Mrs. J. B. Costello, 21, of Los An-
geles today was facing a sentence in
the county jail, should she be
convicted of the speeding charge
filed against her.

Motorcop Officer Louis Heffner,
in filing the complaint today,
charged Mrs. Costello with driving
at a rate of fifty-one miles per
hour. Heffner declared that he
chased Mrs. Costello's car from
Fullerton to the Whittier water
plant, near Whittier, before being
able to overtake her.

When halted and informed of the
charge, she wept, he said.

**MURDER CHARGE
GIVEN PRIORITY
TO CASE HERE**

Orange county will relinquish F.
B. Padilla, accused Mexican fire-
bug, to the Sacramento county
authorities for prosecution on a
homicide charge, it was announced
yesterday.

Answering a telegraphed request
for permission to keep Padilla in
Sacramento for such a prosecu-
tion, Chief Deputy District Attorney
C. N. Mozley, temporarily in
charge of the district attorney's
office, wired his consent to the
Northern officials.

If Padilla is convicted of the
charge in Sacramento, which is
based upon the death of ten Japan-
ese school children in a fire
which Padilla is said to have
started, he will be tried in the superior
court here September 5, will be dropped,
Mozley stated.

If the Mexican escapes conviction
in Sacramento, prosecution will be
commenced anew against him
here, Mozley said.

A telegram from District Attorney
J. J. Henderson of Sacramento
county said:

"Would like your permission to
hold Padilla here and place a
charge of homicide against him.
Can you continue your case so as
to allow us to do this? In case
anything goes wrong here he could be
returned to your county.
Please advise."

Mozley replied as follows:
"If your chance of convicting
Padilla for homicide good, we are
willing you hold him there. Can
commence case here again if necessary."

**PLAN TO SCALE
MT. MCKINLEY
WITH PLANE**

SAN FRANCISCO, Aug. 18.—A
pentagon, instead of the usual
love triangle, in which two
couples and the daughter of one is
engaged in the cross-fire, is the

**SAYS COOLIDGE
HAS RED HAIR,
LOTS NERVE**

"He's red-headed, and he's got
lots of nerve."

This is the description of Pres-
ident Calvin E. Coolidge put
here today by Fred R. Ellis, at-
torney of Ardmore, Okla., who is
in Santa Ana visiting his mother
and father, Mr. and Mrs. C. W. El-
lis, 602 South Birch street.

Attorney Ellis was in Wash-
ington with young Jake L. Hamon
of Oklahoma when President Hard-
ing died.

They visited President Coolidge
at the New Willard hotel and had
a long "chat" with the new Presi-
dent.

"He is a man every one will be
glad to know," Ellis said. "He is
kindly, has a determination that
is remarkable and is very genial."

Ellis, as counsel, is handling the
estate of the late Jake L. Hamon,
Oklahoma millionaire oil man, who
was shot and killed by his wife,
Clara Smith Hamon.

<p

In Santa Ana Churches

First Church of Christ, Scientist—Corner Bush and Eighth Streets. Services on Sunday at 11:00 a. m. and 8:00 p. m. Sermon from the Christian Science Quarterly. Subject, "Soul." Sunday school at 8:00 p. m. Free reading room open daily, except Sunday, from 9:00 a. m. to 6:00 p. m. at W. H. Spurgeon Building.

Church of the Nazarene—Corner of Fifth and Parton Streets. Sunday School 9:30, Charles Wilson, Supt. Morning Service, 10:45. Sermon by Evangelist, Rev. Dave Hill. Afternoon service in charge of Rev. Hill, 2:30 p. m. Y. P. meeting, 6:30. Miss Pearl Galloway, leader. Evening service, 7:30. Sermon by Evangelist Hill. Revival services all this week each evening at 7:30. L. H. Humphrey, pastor.

First Christian Church—Corner of Sixth & Broadway. F. T. Porter, minister. Bible school, 9:30 a. m., E. A. Cox, director. Ladies' class, Community House, 9:30 a. m. Men's Class, Temple Theater, 9:30 a. m. Worship and sermon, 10:45 a. m., subject, "Salt." Evening Union service at Birch Park.

First Baptist Church—North Main at Church street. Otto S. Russell, D. D., minister. 9:30 a. m. Bible School and Delhi Mission. 11 a. m. Morning worship. Sermon, "A Plea For the Open Eye." Dr. Russell will preach and the choir will sing "God So Loved the World" (Woodman). Mr. Butler will be at the organ and Mr. Hillyard will sing "Father in Heaven" (Briggs). Junior B. Y. P. U. will meet at 5 p. m. and the Senior B. Y. P. U. and Senior Christian Endeavor Societies will have their meetings at 7:30. All of the Christian Endeavor Societies of the city will join in a union meeting at this church at 7:30 p. m. Mr. Homer Anderson, President of the Senior Society of the Presbyterian Church will lead, and there will be special music. For our evening worship we will join with the other churches of the city in the Union meeting at Birch Park. Rev. Porter will preach.

Richland Ave. Community Church—Pastor, H. G. Burgess, 507 So. Ross St. Church school, 9:45. Morning Worship 11 o'clock. Union Service 6 o'clock. Prayer Meeting Wednesday, 7:30.

Free Methodist Church—Fruit Street, between Mortimer and Minister streets. Edgar M. Robb, pastor. Sunday school, 9:45. Preaching, 11:00 and 7:30. Young People's Meeting, 6:45. Prayer Meeting, Wednesday, 7:30. A cordial invitation is extended to all.

Church of Messiah (Episcopal) will be closed tomorrow, August 19 and next Sunday for needed repairs.

International Bible Students Association—302 West Fourth, near Birch street. There will be no services Sunday. Local Bible students are attending convention in Los Angeles.

St. Peter Lutheran Church—Sixth St. and Van Ness Ave. Rev.

CALIFORNIA OIL BAROMETER OF WHOLE NATION

G. F. Pauschert, pastor. Sunday school with classes for all ages, 9:30 a. m. Morning worship and sermon, 10:45 a. m. No evening service. A cordial welcome to all.

First Congregational Church—North Main at Seventh. Perry Frederick Schrock, minister. Church school, 9:45 a. m. Morning worship, 11 a. m. Doctor L. Potter Hitchcock will speak. Sermon topic, "Who Is A Christian, and What Is the Meaning Standard?"

Have we lost the meaning of the word? Solo by Mrs. F. W. Slabaugh. Union evening service at Birch Park.

United Presbyterian Church—Bush and Sixth streets; Sunday school at 9:30 a. m. Morning worship at 11 a. m. with George Gleason, director of religious activities of the Los Angeles Y. M. C. A. to speak. Union evening service at Birch Park.

Swedish Services will be held at St. Peter's Lutheran church, 6th and Van Ness avenue at 8 o'clock, Sunday afternoon. Rev. Lind, of Long Beach, will preach.

First Methodist Episcopal, corner of Sixth and Spurgeon. Will A. Betts, D. D. Minister. Phone 1105. Residence 612 Spurgeon. Church office 609 Spurgeon. Phone 1300. Order of services for Sunday: Church Bible school at 9:30 a. m. The orchestra will play "Hearts Longing" by Zamenhoff and Cecil Bircher will play a saxophone solo. Shubert's "Serenade." Classes for all ages, from Cradle Roll to adult department. Morning worship at 11:00. The Rev. E. A. Palmer pastor of the Methodist church at Banning, California, and son of Rueben Palmer of Santa Ana, will preach. The Girl's Vested Choir under the direction of Mrs. Hulda Deitz will sing. There will be no evening service in this church as we unite with the other churches of the city in the Union Service at Birch Park, six o'clock.

The Epworth League for young people will hold their meeting at 7:30 o'clock. Prayer meetings every evening at 7:30 o'clock.

The Church of the United Brethren in Christ—Third and Shelton Streets. J. L. Parks, pastor, residence 1105 West Third St. Phone 2081-W. Community worship at 11 and 7:30. Sunday school at 9:45. Pastor, superintendent. Junior C. E. Friday afternoon at 2:30. Ladies' Gospel team Wednesday afternoon 2:30. Prayer and Bible study Wednesday evening 7:30. Morning sermon "The Stiffed Cry of An Awakened Soul." Evening service evangelistic. We will attend Union services in Birch Park and on dismissal proceed to the church.

Spurgeon Memorial Southern Methodist Church—Broadway north of court house. Moffet Rhodes, pastor. The church school will meet Sunday morning at 9:30. At 11 o'clock the pastor will deliver the sermon. In the evening the congregation will unite with other churches at six o'clock for worship in Birch Park. Rev. Mr. Porter will preach at 7:30. The young people will have a meeting in the church.

Week Long Beach Sales Co. Edinger Square, 2nd unit, open 3d Sunday, 2nd unit, open 3d

Tests of production in the Salt Creek field in Wyoming are continuing and during this period the production of that area will be somewhat larger than usual due to the 100 per cent output from wells being tested. The production, however, during the past week dropped about 12,000 barrels a day. The Powell field in East Central Texas continues to fluctuate considerably. The flush production of completions there falls off fairly rapidly, causing the production to slump from day to day, while the new wells brought in increase the field's output so that the average daily production for a week is the best indicator of what the field is doing."

Have you seen the brakes on the new Nash?

Edinger Square, 2nd unit, open 3d

"Tests of production in the Salt Creek field in Wyoming are continuing and during this period the production of that area will be somewhat larger than usual due to the 100 per cent output from wells being tested. The production, however, during the past week dropped about 12,000 barrels a day. The Powell field in East Central Texas continues to fluctuate considerably. The flush production of completions there falls off fairly rapidly, causing the production to slump from day to day, while the new wells brought in increase the field's output so that the average daily production for a week is the best indicator of what the field is doing."

Under supervision of the county health department, samples of milk are taken from the wagons and stores and tested at the laboratory for purity and richness. As milk is hard to keep in summer, we feel that the tests for July, cited in the foregoing, show some remarkable results.

"Dairy inspection service was established by the board of supervisors to insure pure milk and thereby protect the health of the community. An ordinance was passed enforcing the pure milk laws, and raising the standard of the butterfat from 3 per cent, allowed by state law, to 3.5 per cent.

Welcome Inspection.

"It will be seen that the dairymen have produced even better milk than is required by law, as the butterfat average for July on thirty-five samples ran 3.8 per cent.

"Dairymen of the county have welcomed inspection and have responded with splendid co-operation to the suggestions made by the inspector. Inspection has reacted to the good of the dairymen as well as the consumer and there has been a notable increase in the consumption of milk.

Locksmith's—keys fitted—Hawley's Phone 237 for good dairy products.

S. A. Youth Held To Face Forgery Charge

Held to answer on a charge of forgery, William H. Swall, Santa Ana youth, today was awaiting arraignment in the superior court, following a preliminary hearing late yesterday before Justice J. B. Cox.

Swall is accused of forging the name "C. B. Shawalter" to a check for \$25, said to have been passed to L. Hanson, cashier of a local bank.

COUNTY'S MILK SUPPLY FOUND OF HIGH TEST

Held to answer on a charge of forgery, William H. Swall, Santa Ana youth, today was awaiting arraignment in the superior court, following a preliminary hearing late yesterday before Justice J. B. Cox.

Production of crude petroleum in the field of the United States showed a decrease of 41,257 barrels a day during the past week, as compared to the week ended July 28. An especially encouraging feature of this decline is the fact the decrease was registered in practically all of the large producing areas, indicating the general trend of production has definitely started downward.

"For the third successive week California registered a decline, it amounting to 3,500 barrels daily during the past week, proving to the entire satisfaction of most operators the peak of production of the Pacific coast fields has been passed. It is understood, of course, production in California would be larger were it not for the curtailment program which has been in effect there, resulting in many of the wells being banded in to a great extent. However, it is also agreed the decline in California will be very rapid when once the flush output of the wells has been run off.

"The proration of crude runs and the curtailment of operations resulting from the proration is becoming more noticeable weekly in Oklahoma, where operations are gradually falling off and where production is steadily dropping. A decrease of about 13,000 barrels a day was registered in that state during the past week. At the same time more stringent proration regulations in North Central Texas had the effect of holding down the output there, a decline of more than 6,000 barrels daily being shown during the past week.

"Tests of production in the Salt Creek field in Wyoming are continuing and during this period the production of that area will be somewhat larger than usual due to the 100 per cent output from wells being tested. The production, however, during the past week dropped about 12,000 barrels a day. The Powell field in East Central Texas continues to fluctuate considerably. The flush production of completions there falls off fairly rapidly, causing the production to slump from day to day, while the new wells brought in increase the field's output so that the average daily production for a week is the best indicator of what the field is doing."

"Under supervision of the county health department, samples of milk are taken from the wagons and stores and tested at the laboratory for purity and richness. As milk is hard to keep in summer, we feel that the tests for July, cited in the foregoing, show some remarkable results.

COULD HARDLY DO ANY WORK
But Since Taking Lydia E. Pinkham's Vegetable Compound This Woman Feels So Well

Keesville, N.Y.—"I cannot praise Lydia E. Pinkham's Vegetable Compound too highly for the good it has done me. I was so much troubled with female weakness I could hardly do any work. I saw your advertisement in the paper, and read it to my husband. He said, 'You had better try Lydia E. Pinkham's Vegetable Compound, so I bought six bottles, and by taking it I am not troubled as I was. I am gaining strength and getting fleshy. My female troubles have vanished, and I have never felt so well. The Liver Pills are the best I ever took. If you think my letter will encourage other sufferers you have my permission to use it as an advertisement"—Mrs. SARAH BLAISE, Box 177, Keesville, N.Y.

Doing the housework for the average American family is some task, and many women lose their health in so doing. If you, as a housewife, are troubled with backache, irregularities, are easily tired out and irritable, or have other disagreeable ailments caused by some weakness, give Lydia E. Pinkham's Vegetable Compound a trial. Let it help you.

DOCTORS ADVISE PORT WINE AND OLIVE OIL

A prominent physician in an interview today says the following: "Port wine and olive oil are valuable in the treatment of diseases, increases weight and strength.

Start today taking Port Olive nature's food tonic, and see how quickly you improve. On sale at all druggists. The Port Olive Co., 316 B. Broadway, Los Angeles—adv.

News Notes of Interest To Clubwomen

Monday Bride Greeted By Many Friends at Surprise Shower

When Miss Lois Grace McReynolds on Monday next, becomes the bride of the Rev. Orville J. Heath of Los Angeles and goes to that city to make her home, she will carry with her many lovely gifts presented in honor of her betrothal at a happy shower given Thursday at the home of the Misses Myrtle and Grace Willis.

Rich clusters of purple bougainvillea adorned the Willis home at 926 West Bishop street and greeted the guests who gathered at an early hour in the evening and sat in silence while Miss McReynolds was welcomed for an ostensibly quiet evening and a slumber party with her hostesses. When lights were switched on, to reveal the assembled guests, her surprise was great indeed.

Games and music caused the evening hours and fly and refreshments of sherbet and cake formed a pleasing interlude. Just preceding the serving of refreshments, the hostesses brought in a large basket filled with lovely gifts of a miscellaneous nature which they presented to Miss McReynolds, and which she opened while her friends gathered around to admire.

Following her completion of the Junior High school work, Miss McReynolds, the daughter of Mr. and Mrs. L. B. McReynolds of Bishop street, attended the Los Angeles Seminary. Her fiance is a minister of the Free Methodist church. Those who greeted the bride-elect Thursday night as the guests of the Misses Willis included Mrs. Robert Willis, Mrs. L. B. McReynolds, Mrs. Elma Mueller of Orange, Mrs. Edith Porter, Los Angeles, the Misses Jane Crawford, Carolyn Holmes, Evelyn Lamson, Golda Cook, Alberta Greenwald, Agnes McMillan and Pauline McReynolds.

Massachusetts Folk In Orange County Plan An Organization

Organization of a Massachusetts-Orange county society with a nucleus of 27 North Adams residents of the eastern state was begun at a musical evening held at the home of Mrs. Charles Hurd, 202 Cypress street, last night.

Maurice Phillips, prominently identified with the Orange County Choral union, was elected temporary chairman, and James Bramley, secretary pro tem.

Peter Fogg, who with Mrs. Fogg were honored by the evening's musicals, was greatly instrumental in bringing about the organization of the society.

Mr. and Mrs. Fogg have been touring Southern California during the last few weeks and came to Santa Ana to visit friends. Mr. Fogg is well known in musical circles in the Berkshire Hills colony, Massachusetts. He has a reputation as a band leader and as a teacher of many musical instruments.

Voluntary numbers were given by guests at the affair last night. Following the impromptu program Mrs. Hurd served a light supper.

Plans of the newly-formed Massachusetts-Orange county society include a picnic within the next month.

Among Mrs. Hurd's guests were Mr. and Mrs. Peter Fogg, North Adams, Mass., Mr. and Mrs. James Bramley, William Bramley, Warren Bramley, Gertrude Bramley, Mr. and Mrs. Harry Garstang, Mr. and Mrs. Herbert Johnson, Mr. and Mrs. John Chapman, Mrs. Eliza Phillips, Mr. and Mrs. Lauren Hurd, Miss Dorothy Hurd, Mr. and Mrs. Charles E. Hurd, all of Santa Ana.

Mr. and Mrs. William Phillips, Wintersburg; Dr. and Mrs. C. W. Kimball, Mrs. Hawkins, Miss Mary Hawkins.

Personals

Prepared to spend two weeks in sightseeing and golfing, Mr. and Mrs. John L. Wheeler, 523 South Ross street, left Santa Ana today for Del Monte, San Francisco and other points of interest in Northern California. They will be accompanied by Mr. and Mrs. A. B. Burns of Pasadena.

After several months spent in this city with Mrs. Frances Stewart, Dean of the Bungalow apartments, Miss Dorothy Lewis has left for her home in San Francisco, called there by the illness of her mother.

Planning to take the journalistic course, Miss Maxine Wilson of Orange, prominent in Poly High activities, has registered at Stanford and will leave about September 15. She was editor of the Generator, member of the Honor society and president of the Athena club at High school last year and one of the most popular members of the class of 1923.

Miss Maye Fields of Grand Rapids, Michigan, is a guest in the homes of Mr. and Mrs. Humphrey of West Fifth street and Mr. and Mrs. Roy Schieffelin of North Main street. Miss Fields is a teacher in the Grand Rapids schools and came to California to attend the national teachers' convention.

Friends of Dr. John Menges of Fullerton, son of Mrs. Stella Menges, 1602 East First street, this city, are happy to learn that he is showing some improvement following the operation recently undergone at the Fullerton hospital.

Dr. Menges had been seriously ill for some time preceding the operation.

Frank Culver, proprietor, is anticipating a large fall colony at the resort and it is known that many Santa Ana cottagers plan to entertain gay house parties over the Labor day holiday when the weekend will give opportunity for many happy affairs.

Children's Coats For First Cool Days of Fall Show Cunning Styles That Lassies Will Love

COPYRIGHT BY Mc CALL'S

yet will be heavy enough to feel exactly right on the early morning run to school.

Coats are pretty important affairs when you are young enough to count the number you have possessed on the fingers of one small hand. So of course they must be pretty and stylish as well as warm and cozy.

Here are styles that are recommended for their button-high neck, their pockets, their loose and comfortable style and their trim appearance. One has an all-round belt, the other hangs from the shoulder and flares slightly.

For little Miss School-Girl will have an attractive coat to button snugly under her chin. It will be light enough to be comfortable even when the day warms up, and

Surprise Supper Party Honors Lodge Member Traveling East

Last evening the home of Mr. and Mrs. J. A. Gardiner, 505 South Broadway, was the scene of a merry surprise when members of the Fraternal Aid Union, aware of the contemplated trip east of Mrs. Gardiner and her children, gathered together to wish them God-speed on their journey.

Arriving at 6:30 o'clock, the guests, thirty-two strong, were provided with well-laden lunch baskets whose contents, set forth on tables, proved to be a feast for the gods which the mortals present enjoyed to the utmost.

The loving thoughtfulness of the guests was further shown when Mrs. Gardiner was presented with beautiful boutonnieres in rainbow hues, the work of Mrs. Albert Schrock.

After a merry evening of games and story telling, Mrs. Gardiner was asked to sing and responded with "The End of a Perfect Day" by Carrie Jacobs Bond, with Miss Neta Cain playing her piano accompaniment. Everyone present united in wishing their hostess a pleasant journey and a safe and early return to Santa Ana.

Offer Anniversaries For Celebration

Double celebration of her birthday and first wedding anniversary offered occasion for Mrs. Etta Erickson to entertain the Ladies of the Maccabees yesterday at a happily all-day session at her home on West Seventeenth street, Garden Grove, whither members motored in the forenoon hours.

A delectable chicken dinner at noon was followed by an afternoon of merriment characterized by a clever guessing game in which Mrs. Erickson won the prize of a basket of fine peaches.

The next social session of the order will be with Mrs. Anna Arnold of South Birch street and will be an all-day affair held on September 21.

Those enjoying Mrs. Erickson's hospitality yesterday and showering her with pretty gifts together with warm wishes for future happy anniversaries were Mesdames Sonnies, Sue Spencer, Hattie Peters, Mary Schamann, Katherine Glenn, Mary Culver, Dacia Jasper, Laura Bearss, Frances Wesley, Belle Alderman, Mary Belle Arnold, Bettie Kern of New York, Henrietta Bechtel, Dora Spangler, Laura Moyle, Lucinda Hamilton, Sarah Ostot, Louise Leslie, Iva Olson, Margaret Goepper, Margaret Culver, Core Wood, Anna Arnold, Helen Dارت, Maggie Erickson and Anna Towner.

Forest Home Promises Autumn Activities

Prominent in the cottage colony at Forest Home, high in the San Bernardino mountains, has been J. M. Woodward, president of the First National bank at Garden Grove, and his family who have been spending several weeks at the favored resort.

Mrs. Woodward has taken an active part in the social activities of the colony and has in a great measure been responsible for many of the gay evenings spent about the camp fire and on the dance floor.

Frank Culver, proprietor, is anticipating a large fall colony at the resort and it is known that many Santa Ana cottagers plan to entertain gay house parties over the Labor day holiday when the weekend will give opportunity for many happy affairs.

The J. A. Stevensons Bid Friends Adieu In Brief Visit

Lingered to bid adieu to hosts of friends who regret their departure for San Jose are the Rev. and Mrs. J. A. Stevenson, who, with their son, James, were overnight guests last night of Dr. and Mrs. J. I. Clark, 611 Bush street.

Dr. and Mrs. Clark together with the Stevensons were among those enjoying the Rotarian picnic yesterday at Orange county park where the former pastor of the local First Presbyterian church, ever a loyal and prominent Rotarian, enjoyed the occasion with his old friends.

Today they were enjoying Laguna Beach while Newport Beach also came in for its share of attention. Trusting that all their friends might be met during their stay, the visitors were confining their calls to those shut-ins whom they would not meet on the streets or in casual meetings. Concluding their brief visit here, they will return to their Los Angeles home and prepare for the flitting northward where Dr. Stevenson has accepted the pastorate of the First Presbyterian church at San Jose.

Happy Surprise Planned By Friends

Returning from a delightful six weeks' outing in the far north, Miss Mary Hilyard, of the county assessor's office, and Miss Myrtle Meyer, of the Orange County Title company, have again joined the ranks of Santa Ana's business girls.

Going by the inland route, they left Vancouver, B. C., on the Canadian Pacific steamship line, stopping at Ketchikan, Juneau and Skagway, Alaska, thence by rail and river boat to Lake Atlin and down the Yukon to Dawson. On their return they visited friends in Portland, Seattle and San Francisco and spent a few days at snow-covered Mt. Rainier, Washington.

Neighbors of Woodcraft

Plans for a practice meeting of the W. R. C. drill team were discussed at a recent session of the corps at G. A. R. hall. The practice meeting, however, will be held at Legion hall (the armory) Monday afternoon at 1:30 o'clock, as that will be where the exemplification will be held on September 27, the occasion for the practice meeting.

The G. A. R. hall is too small for the crowd expected to attend the session, hence the choice of the armory.

One new member, Mrs. Lounsbury, was received into the corps and among the interesting matters coming up was the announcement of twenty-nine sick visits made during the past month.

Business Girls Return From Northern Outing

Mrs. Nancy J. Winn, who is planning to leave Tuesday evening for a visit in Wisconsin, was pleasantly surprised last night by a friendly group gathered at the home of her daughter, Mrs. James H. Parker, 916 West Myrtle street.

In carrying out the plan to surprise her mother, Mrs. Parker suggested a drive to Costa Mesa to say farewell to friends there. Falling in with the plan, Mrs. Winn enjoyed the drive and upon returning to the Parker home was completely surprised to find the guests assembled and awaiting her arrival.

The evening was a merry one, devoted to five hundred, in which Mrs. Albert Sanford and Charles Barman were winners of prizes for high scores while Mrs. Allen Mitchell and Mr. Sanford were consoled.

While the guests remained at the card tables, Mrs. Parker served appetizing refreshments.

Those enjoying the surprise on Mrs. Winn and the resultant happy evening included Mrs. Alida Petrie, Mr. and Mrs. Wallace Gibson, Charles Barman, Mrs. Louella Zimmerman, Miss Ruth Zimmerman, Mr. and Mrs. Albert Sanford and daughter, Mr. and Mrs. Ernest Zimmerman, Mr. and Mrs. Allen Mitchell, and the hosts, Mr. and Mrs. James H. Parker.

RICHARD TALMADGE FILM AT PRINCESS TOMORROW

“Wildcat Jordan,” Richard Talmadge's latest feature which shows at the Princess tomorrow and Monday, is a comedy drama which ranks among the most thrilling and elaborate contributions to the photoplay screen.

Thrills and stunts from an entirely new bag of tricks by that incomparable daredevil of the screen, Richard Talmadge, and the most elaborate interior settings and exterior locations obtainable. A fascinating story and a well-balanced cast make this picture the most thrilling, fast-moving comedy drama of the year.

The latest figures show that there are 15,430,000 Jews in the world.

There are 2174 different characters in the works of Dickens.

It would take 5000 bees to weigh a pound.

The first typewriter was made in 1867.

There are about 556,000 seeds in a bushel of wheat.

Jackie Coogan in a scene from "Circus Days," picture which begins engagement at the West End tomorrow.

JACKIE IN CIRCUS

“TEMPTATION” CLOSES AT
TEMPLE TOMORROW

Tiny Film Star's Latest Film Begins Week's Engagement At West End Tomorrow

“Circus Days” a picture adapted from James Otis' famous story, “Toby Tyler, or Ten Weeks With a Circus,” begins a five-day engagement at the West End theater tomorrow.

“Toby,” as played by Jackie, runs away from the farm of a harsh uncle and gets his job as a circus peanut merchant at a dollar week and “found.” His unexpected leap into fame as the hit of the circus comes when he is permitted to substitute for the little equestrienne who had sprained an ankle. True, he hadn't intended to achieve success in just that way, but he is content with the happiness it brings his widowed mother and the little equestrienne.

The strong cast that supports Jackie includes Barbara Tennant, Russell Simpson, Claire McDowell, Cesare Gravini, Peaches Jackson, San De Grasse and De Witt Jennings.

The production is declared to be the finest in which Jackie Coogan has yet appeared.

The equipment, animals and actors of half a dozen of the largest circuses in the world which chanced to be in California were used in many of the most important scenes of the film.

Elephants, camels, lions, monkeys, acrobats, equestriennes, trapeze artists and clowns—in fact, everything that goes into the making of a great circus, from howling side-show freaks and screaming steam calipoes to blaring bands, were there.

And right in the midst of all this glory of the small boy Jackie Coogan presided proudly over a peanut and lemonade stand.

“HUMAN WRECKAGE” AT
PRINCESS TUESDAY

Blast New York—or at least that portion of it which managed to pierce through the surging crowds trying to gain entrance to the Lyric theater—was staggered when it saw Mrs. Wallace Reid's tremendous photodrama “Human Wreckage.”

Never in history has any production made such an impression as did “Human Wreckage,” according to many reviewers.

Sophisticated New Yorkers gasped as they saw unfold before them a smashing drama built on the fabric of life.

They sat spellbound as, with mighty crashes of human emotion there was told on the screen the story with which Mrs. Wallace Reid is fighting the terrible monster which robbed her of everything. “Human Wreckage” will begin a five-day engagement at the Princess theater Tuesday.

“ALICE ADAMS” COMING
TO TEMPLE WEDNESDAY

In “Alice Adams” Booth Tarkington has again drawn a wonderful picture of family life in a small town, and Florence Vidor has performed the best work of her career. “Alice Adams” comes to the Temple for five days beginning next Wednesday.

Alice Adams' family had not kept step with the progress of the town. Others had grown rich, drove in limousines and lived in beautiful suburban homes. Alice's father had held the same position all his life; her mother had to coax and tease out of him every extra cent she needed; and they lived in the same funny old-fashioned house. All of Alice's beau left her when the other girls came back from college and had “coming out” parties. Alice really belonged in their class, but money was the barrier, and when she tried to bluff their poverty she was accused of being a social climber, when all she asked was a chance to play with her own people.

LOUISE LORRAINE, motion picture star who will be hostess at the Tepathol oil lease tomorrow. Miss Lorraine will give an acre oil lease to the luckiest visitor.

DATE NOT SET FOR OPENING AT MISSION

May Take Several Months Before Completion of Restored Parts

SAN JUAN CAPISTRANO, Aug. 18.—The dedication of the restored sections of the old Mission San Juan Capistrano here, including Father Junipero Serra's original church, will not take place for some months, it was said here today. Father O'Sullivan was not at the mission today and could not be reached for an authoritative statement.

Historic interest attaches to this unit of the old mission from the fact that in 1783 Father Serra, a short time before his death in 1784, officiated at services within its walls while on a confirmation tour of the California chain of missions. This was the last, or nearly one of the last appearances of the leader of all the padres at a function of the Roman Catholic church.

Install Fine Altar

In recognition of the importance of this fact, what is said to be the finest altar of any Catholic church on the Pacific coast has just been erected in Father Serra's church at San Juan Capistrano. This altar is of Spanish cedar, elaborately hand carved and engraved. It was brought from Barcelona, Spain sixteen years ago and placed in the care of the late Bishop Conaty, bishop of the Los Angeles and San Diego diocese, upon whose death Bishop Cantwell became its custodian. Bishop Cantwell, in carrying out the wishes of Bishop Conaty, presented it to the Capistrano mission.

The elevation of a portion of the roof of the chapel, practically the only departure made from the original lines of the structure, and the installation of reflected glass windows, produces a wonderfully interesting lighting effect upon the altar and interior of the church. These were started in 1920. The scheme of decoration was decided upon after visits to all the missions of California. The actual work is being done by Steven Maas, a painter.

Father O'Sullivan came to the mission a dozen years or so ago, an invalid. Improvement in his health encouraged him to remain. At the time of his arrival, following pastorates in Missouri, notably in Louisville, where he was ordained in 1904, there was no resident priest and the priest from a neighboring town who visited the congregation for occasional services invited Father O'Sullivan to make his headquarters at the station. He accepted and as he grew stronger began to be interested in the restoration of the crumbling cloister.

Chapel Built in 1778

The chapel was built in 1778, as nearly as can be ascertained. The large church was finished in 1806, only to be half destroyed a few years later by an earthquake that tore away the northern wall and flung the tower in fragments across El Camino Real, the "king's highway," which even then traversed the state and which has been since marked by the supervisors of the various counties through which the old trail of the padres passes.

The dismantled church was never restored. A partition was thrown up to shield the remaining part and services were held until 1886, when the resident priest left. The mission was without a pastor until 1910. In the meantime, somewhere between 1848 and 1867, the northern end had caved, and gradually the mission was abandoned with the exception of the chapel, where mass was frequently said.

Weeds Are Routed

By the time Father O'Sullivan arrived weeds and tourists overran the place at will. Later he was appointed resident pastor of the mission, entering actively upon the project of restoring the buildings and gardens. To help finance his undertaking he hit upon the plan of charging the nominal sum of 25 cents for admission. It worked well, as 50,000 tourists passed through the gates in a year.

Eventually sufficient cash would have been realized, but Father O'Sullivan, knowing that the investment was safe, borrowed a few thousand dollars, making it possible to hurry the work along. In all the years he has been proceeding on the plan of "little by little." It seemed that the buildings of the town of San Juan had been more than half constructed from material taken from the ruins of the mission. So far as possible, Father O'Sullivan induced numerous property owners to return the ancient adobe blocks, giving them new adobe in return. "A new brick for an old one" was his slogan. He oversaw the making of the bricks in the court yard of the mission. They were stacked in the sacristy, ready for use, as were also the red tiles. New, rough-hewn timbers were also patterned in the court yard. The tottering adobe columns of the arches were propped up, pending restoration.

With restoration of the building came restoration of the wonderful flower gardens under direction of experts. The walls of the church are four feet thick. After the work had been completed Father O'Sullivan had missed his calculations by only twenty-seven blocks. Although diligent search was made, Father O'Sullivan says no bodies of padres were found under the floorings of the old chapel.

A box of Fuller's Chocolates makes a wonderful present. At Fuller's, 410 N. Main St.

Winner of Race Sunday At Balboa to Get Trophy

One of the smaller cups in the picture above will be awarded the winner of the race at Balboa tomorrow staged by the Southland Sailing club. The cups, one for 1923, 1924 and 1925, were donated by Mrs. Farwell of Los Angeles, whose sons are ardent followers of the yacht racing sport. In addition to the Farwell twenty foot race the third race for the Fisher trophy will be run off Sunday. It is the final race of the series. C. G. Fisher is chairman of the race committee.

Lease Rejection Would Stop Bond Vote Is Opinion

HUNTINGTON BEACH, Aug. 18.—The very fact that Balboa people have brought up the referendum, will no doubt have an effect on the million dollar bond issue and if the referendum is successful I very much question the necessity of even calling the election.

This significant statement was made today by Thomas W. Talbert, chairman of the Orange county board of supervisors, who was interviewed from his sick bed at his home. Continuing he said:

"If the pipe line is killed I fear Newport would have to build her own harbor. If industries coming in are given no encouragement, it would be useless to consider voting more bonds. Opposition, locally, would be sufficient to check activity on the bonds, and nothing would serve to kill the issue quicker than this attempt to stop legitimate industries from coming in."

LA HABRA CHAMBER MEN MEET MONDAY

LA HABRA, Aug. 18.—An unusually important meeting of the La Habra chamber of commerce will be held at the community hall Monday evening, the business session to be preceded by a dinner at 7 o'clock. At this meeting steps, it is expected, will be taken to start a membership drive which will have as its object including in the membership every citizen of the community. There will also be discussion looking toward the enlargement of the activities of the organization, to keep pace with the increased growth and prosperity of La Habra.

Charles P. Bayer, manager of the organization department of the Los Angeles chamber of commerce, will be the speaker of the evening. It is expected that he will present some very valuable ideas in respect to chamber of commerce activities.

The department of which Mr. Bayer is the head makes a practice of conducting membership and financial drives for civic organizations when requested to do so, and has been the means of putting numerous bodies in the Southland on their feet. Mr. Bayer will explain this plan for the benefit of the members.

President James C. Howard will announce his list of standing committees for the year, and it is expected that they will get to work at once.

Social-Personal Notes of Orange

ORANGE, Aug. 18.—Miss Holly Lash, director of music in the Orange Methodist church, was most surprised at the conclusion of practice Thursday evening when the members of the choir turned the gathering into a party in her honor. Miss Lash had charge of the music in the Orange church for the past year and the vacancy caused by her recent resignation will be a hard position to fill.

Miss Lash was all unaware of the plot of her co-workers and practice was held as usual. After the regular work completed about forty-five members of the choir asked Miss Lash to come with them to the social hall, which had been artistically decorated for the occasion. Here the entire company played games, consisting chiefly of "My Aunts Gone to Paris," An imitation of an orchestra, and "The Gathering of the Nuts."

At the conclusion of the watermelon feed C. I. Stuckey presented Miss Lash with a gold pen and pencil as a token of the esteem of the members of the choir. Miss Lash responded and stated how much pleasure her work in Orange had been to her.

Miss Lash's present plans are to devote her entire time to the work in her studio which is located in Santa Ana. Harold Girton of Orange will direct the choir in the future.

The J. B. McDaniel family drove to Riverside Thursday.

BEACH VISITORS HAVE UNIQUE CAMP AUTO

LAGUNA BEACH, Aug. 18.—Mr. and Mrs. W. A. Conner of Berkeley and Mr. Frank Washburn, brother of Miss Jessie Washburn of the Arts and Crafts shop in Laguna, have been camping in the village for several days.

Camping, but not in the accepted sense of the word; no pitching of tents or cooking by a smoky fire or eating sand with their food for them, for they brought an apartment with them from Los Angeles; a most complete house on wheels.

"Bunk On Wheels"

About three years ago Mr. Washburn conceived the idea of building what he calls "a bunk house on wheels" and started to plan it.

The actual building of the house took two years and a half, for Mr. Washburn did it all himself in spare moments.

The house is mounted on a five-ton Moreland truck and weighs two and a half tons.

The floor plan is eighty by eighteen feet and the walls are about six feet high.

Steps at the rear of the trunk lead to a porch large enough for two camp chairs to be placed comfortably.

Over the door that leads into the house is the name given to it by Mrs. Conner and put into Spanish by Mr. Washburn, "El Vagabundo," The Vagabond.

CARRY Full Grown Sink

Just inside the door on the right is a small sink with cupboards above it on three sides for dishes, etc., the shelves in the dish cupboards are made just high enough for one dish to slip in, so that they are held securely when the truck is in motion.

Opposite the sink is a stove and beyond the culinary department are two compartments on either side, one a shower, the other containing a lavatory, medicine chest, etc.

Next is that main living-dining-bedroom and library, which has sleeping accommodations for four people, being equipped with berths somewhat after Pullman car style.

Three windows, with roller shades on each side of the room supply light in the daytime and for night lighting the house has an electric generating plant and an acetylene gas plant.

During the daytime the two upper berths are fastened up against the ceiling and the two lower ones are turned into comfortable couches.

Between meals a small table with one leg that clamps into the floor, holds books. (We saw our hostess hastily cover the Adventure Magazine with two Geographicals), and a pottery vase for flowers, but at meal time another table is set with a leaf that joins the first, which makes a long dining table.

At the head of one of the couches is a well-filled book shelf and on the walls are hung a number of Mr. Washburn's own pictures. He is a photographer with great artistic ability.

On each side, at the end of the room, are cupboards and rows of drawers and closets for hanging clothes.

Under the truck are two forty-gallon tanks which supply the running water for the sink, shower and lavatory.

CAR Very Modern

El Vagabundo is modern in every sense of the word, for besides running water, lights and gas it has a radio attachment and the occupants have enjoyed many concerts while they watched the waves break on the rocks of Laguna.

Mrs. Conner, better known as Torrey Conner, lived for many years in Los Angeles before moving to Berkeley and was a "Special" writer on the Los Angeles Times.

She has written many books on travel and has also much excellent verse to her credit.

She was sent by Leslie's Weekly to Paris at the time of the Paris exposition and has since been editor of "The Silhouette," a student writer's magazine, in Berkeley.

Mrs. Conner knew Jack London intimately and numbers among her friends and acquaintances many other well known writers; our own postmaster-author, Brayton Norton being one of them.

Mr. Conner is in the accounting department of the State university and he and Mrs. Conner are now on their way home for the opening of the college.

Mr. Washburn says that he hopes some day to make El Vagabundo his permanent abode and wander about the country as he pleases.

Mrs. Byrd, who has been quite sick, has improved greatly during the past week.

Mr. and Mrs. F. O. Young of Orange were visitors at the home of Mr. and Mrs. S. J. Zuckerman this week.

Mr. Kavanagh of Detroit, Mich., is leaving the East for a visit with his sister, Mrs. E. P. Francis.

Mr. and Mrs. Sollis and Miss Velma spent Wednesday evening with Mr. and Mrs. J. H. Summers.

The county health officer made a visit to Richfield Tuesday and discovered a bad leak in the water line which was the cause of the extremely low pressure into the town.

Mr. and Mrs. G. Gender made a trip to Whittier, where friends from the North are spending a vacation.

Mr. and Mrs. Vern Adams entertained at dinner a number of friends and relatives. Among those enjoying the party were Mr. Newcom and Miss Newcom, Clair Fletcher, and Mrs. Adams.

Laguna Beach to be Scene of Moon Festival on Sands August 24 and 25

The story of creation, according to Greek mythology, will be the theme of the Greek festival at Laguna, under the direction of Edna Lee Rider, the evenings of August 24 and 25. Here are some of the dancers. The merchants of Laguna will direct the city in honor of the event.

PETITION FOR REFERENDUM PREPARED

Active "War" On Pipeline Permit to Begin With Bid For Voters' Signatures

NEWPORT BEACH, Aug. 18.—Referendum petitions will be circulated the first of next week, or as soon as they can be prepared, on the ordinance granting a franchise for an oil pipe line into Newport Beach, following a meeting Wednesday night in the Balboa Chamber of Commerce, and which was presided over by H. L. Sherman.

The law provides that in order to invoke the referendum it requires 10 per cent of the electors who cast their ballots at the preceding election for governor. In the case of Newport Beach it only needs about 75 names on the petitions, which when completed must be filed with the city clerk, who is allowed 20 days to certify to the correctness of the voters, after which it is sent to the secretary of state.

HERE Is Committee.

The meeting selected the following persons to circulate the petitions: M. L. Orcutt, bookkeeper for Way and Driggers, Balboa; H. M. Worcester, president of the Southland Sailing Club, Balboa; W. P. Cooper, East Bay Front Property Owners' Association; W. L. Jordan, president of the Balboa Chamber of Commerce; L. W. Briggs, member of the real estate firm of Funchion, Wallace and Briggs; W. H. Crowell, trustee Balboa Island Improvement Association; William H. Burnham, local agent for the Blankenhorn Realty Co., Pasadena; K. I. Fulton, local agent for Sims-Guedel Co., Los Angeles; George C. Conklin, who claims to represent East Newport property owners. The petitions are being prepared by Meserve and Meserve, a Los Angeles firm of lawyers. Shirley Meserve is comodore of the Yacht club.

One of the plans discussed at the meeting was to have home owners here who live elsewhere, register at Newport Beach, in order that they may vote on the referendum. Many people who make this beach their summer home reside at River-side, Redlands, San Bernardino, etc. A recent decision of the state supreme court holds that where a man sleeps that is his voting residence.

WOULD Keep Beach Clean.

In a statement made by William H. Burnham, Jr., chairman of the committee having the campaign in charge, he declared that he wished it understood he was not against the development of the harbor and that he was for commerce; that he believed there was room here for both pleasure and commerce, but that oil and water did not mix. He was opposed to oil, he wanted the water kept clean for pleasure and commerce.

When citizens of Newport received the news of the action of the Balboa end, it stirred their indignation to the depths and they freely declared they would fight the referendum to a finish.

PERSONAL NOTES OF LAGUNA BEACH

LAGUNA BEACH, Aug. 18.—Miss Mary Riker and her brother, Herbert Riker, gave a party at the Tea and Tiffin Tuesday evening, at the bridge and other games were played.

The usual procedure was reversed and the holders of the low scores won the prizes. Mrs. Blackledge and Mr. Jack Power were the lucky ones. There were about fifty present.

The Community Players held a meeting Friday night to discuss the new club house.

Miss Florence Daniel and Miss Nancy Gladish of Chicago were the guests of Miss Mary Grey from Tuesday to Thursday. Miss Daniel spent some time here two years ago and is well known in Laguna.

Mr. and Mrs. Walmsey Leonard were over from Capistrano Thursday evening.

A number of Laguna's business men attended the hearing of the Balboa-Serra stage line at Balboa Thursday.

Mell Smith wants to buy 5,000 used watches. 313 W. 4th

FARM BUREAU FOLK HAVE PARK PICNIC

A new model sedan, announced by the Gardner Motor company of St. Louis, now is being displayed by Lantz Bros., 517 North Main street, local Gardner distributors.

While the body construction is closely patterned after the previous Gardner sedan model, there have been some noticeable changes in dimensions, body lines, outside finish, and upholstery.

The seats have been widened, deepened, and lowered. The angle between the seat cushion and the seat back is so designed as to give maximum length to the back springs, which contributes materially to increased seating comfort.

The back of the front seat is cut out giving more leg room in the tonneau. In this cut out, a heater is placed, making it out of the way of interference in the tonneau proper.

W. P. Fuller & Co., paints, varnishes, plate and window glass, mirrors, 400 W. 4th St. Phone 861. Radio supplies. Gerwing's, 312 Bdw.

AUTO MEN TOLD NECESSITY OF TIME SAVING IN BUSINESS

L. A. Accountant Speaks
At Meeting of County
Motor Car Dealers

URGES FIGURES KEPT

Firms Should Operate By
Departments Is Claim;
Says Profits Count

The most important thing as related to a business is time. Time saved by employees yields a profit. Time saved through the use of correct records is an advantage and as a factor in turnover is a mighty power for dividends.

Thus did Arthur M. Loomis, Los Angeles certified public accountant, complete his address before the Orange County Automobile Trades association, which last night met at the George Dunton garage, this city.

The meeting attracted a large number of county tradesmen and a delegation of thirty members from the Los Angeles and Pasadena associations.

Loomis, as the principal speaker of the evening, selected as his topic for discussion, "Facts and Figures." He said in part:

Net Profits Count

"Net profit is the thing that counts. To know the cost of doing business you must have correct records. Turnovers and not leftovers' should be the slogan of a business. Your books should show the operation of your business by departments. You should know your gross profit by departments, your expenses, your net profit. These figures should be taken from books accurately kept — Don't guess.

"Your expenses should include operating expenses, owner's salary, depreciation on equipment, loss on obsolete stocks, loss on doubtful customers' accounts, accrued interest, taxes and wages.

"Make comparisons of your operating statements monthly. Know how many goods are returned and compare this with your volume of sales. If possible, have a perpetual inventory of your merchandise for it may prevent you from running short on over-buying.

Must Check Merchandise

"Don't forget that it is just as important to check merchandise as it is to count the cash in your safe. Don't let your accounts receivable get old without knowing it — keep after collections. Be sure you carry a proper amount of insurance of all kinds. Make up a budget every three months of your expected sales, expenses and profits — compare these monthly with the actual facts as taken from the books of

(Continued on Page 10.)

Supervisor Flinham of the Forestry Service of Los Angeles county recently surmounted a problem involving a steep grade.

Oak Hill had been chosen as a location for a look-out station in connection with forest fire prevention work. This hill, near Newhall, is the highest in the vicinity.

Engineers in building a road to the summit had reduced grades to the lowest percentage, but at one point for some 500 feet engineering skill could not overcome Nature's own construction work and the best that could be done was a grade of the least between 35 and 40 per cent.

Supervisor Flinham had to transport a 3,000-pound steel observation tower to the station at the top of the hill.

The sales department of the Moreland Motor Truck company was consulted.

A regular stock Moreland Road Runner with a rated capacity of 2,000 pounds was run out and the tower was loaded on, giving it a 50 per cent overload.

The Road Runner sailed steadily up the full five miles of grade, taking the big grade without a whimper and landed the tower on the top of the hill, without a moment's hesitation or uncertainty, and arrived with the water in the radiator so cool that those in the party could stick their fingers in it without discomfort.

IMPROVEMENTS MADE IN NEW NASH MODEL

(Continued From Page 9.)

Plates protect the car from being marked by toe and heel in entrance or exit.

"There is a windshield wiper; braking system of increased surety and power; large stoutly built trunk that rides a rack at the rear; nickel-plated guard bars; and a score or more of other attractive features.

New Ventilators Installed

"All of the other Nash four-cylinder models also have this new cow vent; kick plates; more efficient braking system, and new type gas and spark control. In the open models the doors now contain large pockets for storing the curtains.

"The most striking advancement in body lines that characterizes the entire six-cylinder Nash line are the new and distinctive fenders. Both front and rear fenders have a far deeper crown which gives them a more massive appearance. "The front fenders have been extended forward and curved further down and in the front of the wheels. The apron starts at the very front of the fenders and is gracefully draped forward to meet the extreme front end of the frame side members. This construction accentuates the beauty of the car and also serves as a greater protection against splashing mud and water.

"The rear fenders are extended further back and further down with a particularly graceful sweep to their rear end. They also afford greater protection and add materially to the smart appearance of the car.

Finished in Sky Blue

"The new six sport model is worthy of particular attention, as it is finished in a beautiful shade of Nash sky blue, upholstered in gray Spanish leather with every convenience in the way of equipment that a driver could desire.

"The new Nash six instrument board is not only a work of beauty, but the instruments are arranged in the most convenient manner for the driver. The board itself has a dull satin finish with three neatly arranged assemblies under glass. The panels of glass are thoroughly illuminated by an individual electric light which may be turned on permanently or flashed on at the driver's will. A jeweled high-grade clock has been added as standard equipment.

"The six-cylinder line comprises, five-passenger touring, sport model, roadster, five-passenger sedan, four door coupe, on the 121-inch wheel base, seven-passenger sedan, victoria, and seven-passenger touring, on the 127-inch wheel base.

"The four-cylinder line includes carriage, five-passenger sedan, sport model, roadster, and five-passenger touring, all on the 112-inch wheel base.

Some combination — the new Nash and May Motor Service.

MUNICE, Ind., Aug. 18.—Mrs. Max Creda, wife of a farmer living in the northeastern part of Delaware county, may lose the sight of an eye as the result of the playfulness of a pet rooster. Mrs. Creda was holding the rooster in her lap when it pecked at her eye. It is feared the sight may have been affected.

Mystery Shrouds Origin Of Lost Race Ceramics

WASHINGTON, Aug. 16.—One of the greatest puzzles in the study of the prehistoric American Indian is the nature of the people who make a wonderful type of pottery found in the Mimbres valley in New Mexico.

Dr. J. Walker Fewkes, chief of the bureau of American ethnology of the Smithsonian institution, recently returned from an investigation in the valley, but reported he had learned absolutely nothing of the lost race whose ceramics, first found by him in 1913, are pronounced to be among the best ever unearthed in North America.

The figures of men and animals, birds, fish, reptiles and insects, as well as geometric designs of unusual excellence, decorate the pots, bowls and other household articles found by Dr. Fewkes. The representations of life are full of action, and it is difficult for scientists to understand how the ancient inhabitants of the valley were able to achieve the accuracy and perfection of the involved designs without the aid of mechanical devices.

English Policewomen To Instruct Germans

COLOGNE, Aug. 16.—The Cologne newspapers publish an appreciative notice of the forthcoming institution of women police in the city. It says:

"Our streets will shortly show a new picture. Experienced English policewomen will devote themselves to the task of rescuing young and inexperienced girls from the streets and passing them over to our women's organizations. The English policewomen are educated persons who have earned the gratitude of their own countrywomen for the tact and humanity with which they have everywhere carried out their duties.

They are training a number of German women, already social welfare workers, who will take up their duties at the same time as the English policewomen under the supervision of the German authorities. This new institution was desired and is welcomed by both the British military and the German civil authorities in Cologne, and deserves the support of the population."

TWO ADDED TO COUNTRY CLUB DIRECTORATE

Following a meeting of the board of directors here at St. Ann's Inn, announcement was made today by President C. G. Twist that two new names have been added to the directorate of the Santa Ana Country club, which is planning a new clubhouse and a modern golf course on its recently-purchased tract on Newport boulevard. The new directors are D. Eymann Huff, prominent in club and social circles, and Fred Parsons, past exalted ruler of Santa Ana lodge of Elks.

"We expect a visit from John Duncan Dunn, widely-known golf architect, the latter part of this month," said President Twist, "and we will then be ready to discuss the plans he is making for giving Santa Ana and Orange county one of the finest clubs of the kind in the Southland. The directors will meet as soon as Dunn arrives from Lake Tahoe and go over the plans and specifications. Contracts for the work will be let immediately thereafter."

The officers and directors of the club are:

C. G. Twist, president; E. S. Gilbert, vice president; G. B. Shattuck, secretary; Edward McWilliams, treasurer; W. A. Huff, Frank Purinton, Lew H. Wallace, J. L. Wheeler, Fred Parsons, E. T. Maier and D. Eymann Huff.

Frank Purinton was named chairman of the building committee.

LIFE IN ONE ROOM WINS WIFE DECREE

Mrs. Verna Pappas, 17, was today in possession of an interlocutory decree of divorce from Thomas Pappas, 38, proprietor of a cafe at Fullerton, following a hearing of her case late yesterday in Superior Judge William D. Dehy's court here.

Mrs. Pappas told the court that her brief married life with Pappas was a continual clash of temperaments, owing to their disparity in ages and tastes. Her husband, she said, insisted on taking his bride to the room he had occupied as a bachelor and refused to allow her to leave the room while he was away. He also wanted her to work in his cafe, she said, after promising her before marriage, that he would not expect her to.

Mrs. Pappas, represented by Attorney Thomas McFadden of Anaheim, was awarded \$360 alimony, to be paid within a year.

Widow Granted Estate Settling Plea of Will

The will of the late Thomas Robertson, Santa Ana, had been admitted to probate here today, following a hearing yesterday before Superior Judge William D. Dehy, who granted letters testamentary to the widow, Blanch Robertson, as executrix of the will.

Judge Dehy also admitted the will of P. S. Bemis, deceased, to probate, on petition of Arthur C. Bemis, executor.

Walter R. Schmid was appointed administrator of the estate of Caroline Schmid; Belle K. Hearn was appointed administratrix of the Anna Kite estate, and H. H. Jamison was named administrator of the Nelson H. Jamison estate.

Mother Dives From Auto to Save Baby

CHICO, Aug. 18.—Love for her baby caused a Japanese woman, Mrs. Konami Ide of Oroville, to leap to the highway near Richvale, through the open door of an automobile, and through which the child had fallen. She did not wait for the machine to stop, but made an instant dive when she saw the door swing open and the baby fall out. In consequence, she is in an unconscious condition in a hospital in Chico. The baby is unharmed.

Wife's Suit Seeking Divorce Is Granted

Mrs. Mary Pollard's suit for an interlocutory decree of divorce from Guy Pollard had been granted here today. Superior Judge W. D. Dehy heard the case late yesterday.

ANNOUNCEMENT

Drives New Machine
At 33 Mile Gas Rate

After taking a ride out of competition down in San Antonio, Texas, where a \$50 bet prompted a contest in which the Oakland Red Bird came through with wings spread for over thirty miles to the gallon, A. G. White of Toledo, Ill., reports that he drove his Over-

land Red Bird from the Willys-Overland factory to his home town, a distance of 333 miles, on twelve gallons of gasoline, making an average of 33 miles to the gallon. Several years ago White had the misfortune to lose both of his arms in a corn shredding machine and most people would regard this stroke of bad luck as an effectual bar to driving a car.

Not so with White, however, who takes as much as and probably more pleasure out of motoring than the average man who has the free use of both arms. White is an expert driver.

The New
Five Passenger Buick!

A new Buick six-cylinder touring car! Buick in character—Buick in quality—yet a new Buick—a finer Buick. It has a compelling fascination that inspires you to take the wheel and, conscious of being fittingly conveyed, travel the ways of business or of pleasure.

Here, too, is power. And with this greater power is also greater safety for the proved Buick brakes are now applied to all four wheels. The new Buick 70 h. p. valve-in-head motor with its complete automatic system of lubrication contributes to that greater measure of utility and satisfaction which it is Buick's policy, year after year, to build into its cars.

H. B. ROTARIANS
GIVEN CHARTER
IN FETE HERE

As the outstanding feature of the big Rotary picnic at the county park yesterday, the Huntington Beach Rotary club was presented with its charter, and today the club is full-fledged, making the fifth Rotary club in Orange county.

The charter was presented by Jack Williams of Long Beach, former district governor of Rotary, with Paul Rieger of San Francisco, present district governor, assisting in the ceremonies. G. J. Daley of Santa Ana, who organized the club, presided at the ceremonies of presentation.

The charter presentation took place in the pavilion, following an afternoon spent in sports in which Rotarians and their wives engaged with the utmost good nature and to the fullest enjoyment.

Seven Cities Represented.

Rotarians of Santa Ana, Orange, Fullerton, Anaheim, Long Beach, San Pedro and Huntington Park took part in the festivities. There was a news weekly movie camera on hand through arrangement of E. D. Yost of Yost's theater to take pictures of some of the day's stunts.

The first event of the day was a warm baseball game between the Orange county men and those from outside the county. Bill Graefe, Long Beach, for the outsiders, pitched against Lamont McFadden. Whether it was pitching that won or heavy hitting does not appear, but Orange county took the strenuous event by a score of 14 to 5. At least, the scorekeeper said that was the score.

Women in Contests.

The Orange county men also bested the outsiders in a tug-of-war. Santa Ana took a so-called chariot race, four runners locking arms. The Santa Ana speedsters were William McKay, Roland Dye, Ed. McFadden and Jack Hayden.

In baseball throwing, Mrs. Roland Dye, Santa Ana, took an easy first. Mrs. R. W. Kutter, Huntington Beach, took a running backward race, and Mrs. Earl Morrow, Santa Ana, took a contest in which ability to balance a hoe handle on the index finger was the point at issue. Mrs. J. H. Davis, Huntington Beach, won an egg-carrying stunt.

A shoe-tying event went to Sanford Cole, Santa Ana.

A hobby race went to Jack Whitney, Huntington Beach.

Boys' Band Plays.

During the afternoon and during a barbecue dinner music was furnished by the Santa Ana Rotary club boys' band, led by S. J. Mustol. The band won no end of applause and commendation.

The wide influence that Rotary clubs have had in carrying out the Rotary principle of service was dwelt upon by Jack Williams, Long Beach, in presenting the Huntington Beach charter. Jack Whitney, president of the beach club, accepted the charter for the club.

The members of the new club are Jack M. Whitney, M. G. Jones, H. V. Anderson, J. H. Davis, H. T. Dunning, W. J. Ellery, Dr. H. F. Gramlich, L. E. Hendrickson, R. W. Kutter, F. H. McElfresh, C. C. Newland, R. L. Obar, A. W. Shamel, E. A. Suter, V. H. Wilhelm, J. A. Wilson and W. D. Young.

NAVY TRUCK DRIVER
INJURED IN SMASH

S. H. Marks, 19, truck driver, of the naval air station at San Diego, was at the Community hospital here today suffering from bad bruises about the body, possible internal injuries and severe shock as result of running his motorcycle into a bridge twelve miles out of Oceanside last night.

A passing motorist, Thomas A. Richards, 538 North Boyleston street, Los Angeles, brought Marks to Santa Ana and notified the police. Officer Yoder had Marks removed to the Community hospital.

Marks said he was blinded by the headlights of an automobile coming toward him as he approached the bridge and, as a consequence ran head on into the bridge parapet. He was thrown to the roadway with great force and his machine was wrecked.

On request of Marks, Captain Craven of the San Diego naval air station was notified of the accident.

The attending physician said the injured man probably would be kept at the Community hospital until it was definitely ascertained whether he had received internal injuries of the stomach. No bones were broken, according to the doctor's diagnosis.

Barber Spends \$2000
For Money Machine

CHICAGO, Aug. 18.—Sila Wolloch, barber, has discovered that the wonderful machine which turned out nice new \$5 bills is no good. And he is figuring up how long it will take him to save up the \$800 he borrowed to say nothing of the \$1400, his savings from ten years of factory toil, to buy it.

Sila met a couple of fellow countrymen a week ago. They talked of old Russia and bought Sila a seat at the circus and peanuts and soda pop. Then they showed Sila the machine that made \$5 bills right before his eyes.

The price? Dirt cheap, considering. Only \$2000. Sila drew his \$1400 from the bank and borrowed \$800 more. That's all.

Some combination—the new Nash and May Motor Service.

Relative In East Fears
Quake Fatal; Reassured

Earthquakes, according to City Marshal Claude Rogers, cause the greatest "tremors" at places far removed from the center of the quake. He received letter today from Mrs. A. L. Smith of Central, Ky.

Mrs. Smith said she wanted the chief to look up her sister, Mrs. Grave Dixon, 112 East Pomona street, R. F. D. 4, Box 22, Santa Ana.

"We've written her two letters and a card, but have not received any answer," Mrs. Smith wrote. "I am afraid she was caught in the earthquake. If you get any information of her whereabouts, please drop me a letter."

Rogers wrote in reply today that he was pleased to say that Mrs. Dixon was in the best of health and living at the same address.

Urge Motorists To
Get Off Main Roads

Many automobile drivers drive thousands of miles each season yet never see the real country, according to C. J. Nephler, sales manager of the Oakland Motor Car company, Pontiac, Mich. With the summer waning and autumn, one of the most beautiful motorizing periods of the year approaching, he advises pleasure drivers to "hit the dirt."

"Stay on the concrete if you are bound for a specified destination," he said, "but if you are taking the family out for a week-end or Sunday trip away from the city leave the improved, main-line arterials once in a while. Those dirt cross-roads you so scornfully shoot past are not as bumpy as you think; they are far safer to drive on and lead to enchanting places you never dreamed were so near home."

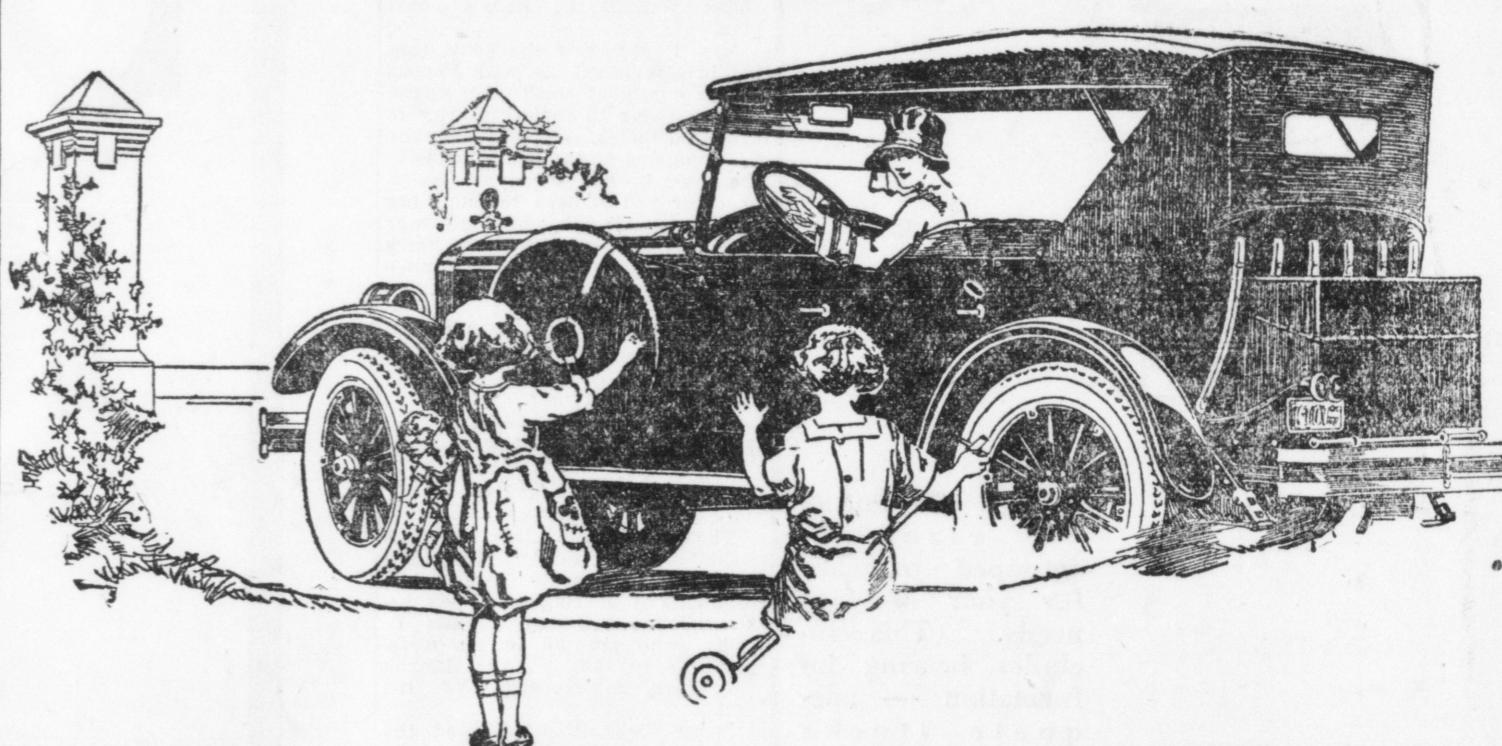

THE
GENERAL
CORD TIRE

—hardly enough higher
to notice — yet you
would pay the railroad
three times as much for
21,000 as for a 7,000-mile
ticket.

JEWETT SIX
PAIGE BUILT

See the New Jewett Six

12 Major Improvements at No Advance in Price

Fifty thousand Jewett owners testify that Jewett Six is the most car for the money that has ever been built! Now—the NEW JEWETT SIX tops all former achievements!

Here are twelve important improvements which add sensibly to Jewett Six's value, sturdiness, comfort and completeness. Read what the NEW JEWETT SIX now gives you in addition to its established superiority. More than ever Jewett Six now dominates the \$1000 class.

1. Large brakedrums. Now 14 inches in diameter. Added strength, absolute safety. 18.21 pounds per square inch of braking surface. More than any car its size.
2. Heavier, stronger wheels. More bolts. Larger spokes. A 25% greater margin of safety than ever offered in a car this size.
3. Positive pressure chassis lubrication, using oil not grease. Avoids the mess of grease cups. Masters squeaks. Insures long life in all working chassis parts.
4. Improved valve mechanism—rings in bath of oil—is practically noiseless and will long outwear usual design. Experienced motorists particularly will approve.
5. Improved Rayfield carburetor. Increases gasoline mileage about 10%. Gives smoother, faster action in get-away with no sign of "fuse."
6. New position of gear-shift lever; now immediately under driver's hand—no reaching.
7. New type of spark and throttle control. Smart in appearance; safer; more convenient. A distinct improvement that appeals to all drivers.
8. New instrument board assembling instruments in oval panel. More convenient; quicker, easier vision day or night. Compact; neater in appearance.
9. New type non-glaring reflectors in headlights. Legal everywhere. Reduces annoyance for oncoming drivers. Provides wonderful illumination.
10. Thicker and more comfortable upholstery in open models. Easy spring action, soft cushion effect, a delight to women.
11. Deeper front seats with back tilted to give easier driving posture; longer leg room. A really restful, easy car to ride in.
12. New pattern velour upholstery on standard Sedan models. Makes a rich looking car.

are forced through all main and connecting rod bearings. For a year and a half Jewett Six has been outperforming other cars. Jewett Six buyers are enthusiastic. Now—with 12 important improvements, and a host of refinements the NEW JEWETT SIX is far and away the most sensational value the market affords.

Drive one of these NEW JEWETT SIXES. Let your wife drive. All Jewett dealers are ready to show you. A telephone call will arrange a demonstration. Be among the first!

HELEN, MOLLA MEET FOR TENNIS CROWN

Crowd of 14,000 Expected As Court Queens Battle For National Title

(United Press Staff Correspondent) FOREST HILLS, N. Y., Aug. 18.—For the second time in two years, Helen Wills, the golden haired California, stands today within reach of the crown of queen of the American tennis court.

The 17 year old Berkeley high school girl will meet here this afternoon Mrs. Molla Mallory, seven times champion of the United States and a star who has not been defeated on an American court in four years.

In the new stadium of the West Side Tennis club, which may be filled almost to its capacity of 14,000, Miss Wills faces the formidable Molla in the final round of the American women's championship and in a match that promises to be as thrilling as any that have gone before it in this classic.

More than the belief that this is Helen's year has caused the rank and file of tennis to believe and rather hope that the pretty little California miss has reached her goal.

Through the most exacting tests, in which she was called upon to beat the very best players in the tournament, Miss Wills advanced to the final round and her game assured her of a very fine chance to win the championship.

The weather today proved a big break in her favor. It was again cool, almost like football weather, and has been shown throughout the tournament that Miss Wills is at her best in these conditions. She withers under the intense heat of the sun.

Two weeks ago when she met Mrs. Mallory in the final round for the New York state championship she played under a broiling sun and finished the game in an almost state of collapse.

The feature match of the day will start at 2:30 p. m. and it will be followed an hour later by the finals in the double in which the British team, Miss Kathleen McKane and Mrs. B. C. Covell, will meet Miss Elanor Goss, and Mrs. Hazel Hotchkiss Wightman.

Here's Yesterday's Home Run Sluggers

Ruth, Yankees, 1, total 31. Heilman, Tigers, 1, total 14. Holke, Phils, 1, total 6. Mueller, Cardinals, 1, total 4. Burns, Reds, 1, total 3. Donohue, Reds, 1, total 1.

Milk Pail as Deadly Weapon, In Case Here

The lowly milk pail, symbol of rustic peace and quiet, was dragged forth from its pastoral setting today and thrust into the society of such hard characters as guns, knives, black jacks and such. Shades of the old farm! The milk pail was classified as deadly weapon!

"Assault with a deadly weapon, to wit: a milk pail," was the charge filed against Manuel Azevedo, resident of Garden Grove, who was at liberty today on his promise to appear in Justice J. B. Cox's court for preliminary hearing September 4, at 2 p. m.

Azevedo was charged with wielding a milk pail in an asserted attack upon Manuel C. Laurencio, August 14. Laurencio also accused Azevedo of threatening him with a butcher knife, on August 2.

Have you seen the brakes on the new Nash?

Here's Susanne As Photographer Saw Her At Golf Match

SUZANNE LENGLEN, world's champion woman tennis player, swings a nasty golf club in addition to her ability with the strung instrument. Here's Suzanne snapped when she discarded her racket to participate in a recent golf tourney at St. Germain, France.

In the Big Leagues

George Burns socked one for four bases in the eleventh inning and gave the Cincinnati Reds a 5 to 4 victory over the Giants.

Babe Ruth's 31st homer with Duigan produced a pair of markers that enabled the Yanks to win from the Browns, 5 to 4.

After winning ten straight games, "Dazzy" Vance was treated harshly by the Cardinals and Brooklyn lost, 8 to 5, in 12 innings.

Pillette was wild every chance he got to do damage and the Tigers dropped one to the Athletics, 7 to 6.

Ted Blankenship threw a flop in the tenth inning when the Senators scored two runs and beat the White Sox, 6 to 4.

The Pirates pounded Ring out of the box in the seventh inning and beat the Phils, 11 to 6.

Bunched hits off Fillingim gave the Cubs a 6 to 2 win over the Braves.

Fight Results

NEW ORLEANS—Charles Ferri, New Orleans, won a 15 round decision over Dutch Brandt, of Brooklyn last night.

SAN FRANCISCO, Aug. 18.—Jack Sullivan continued his winning streak last night by defeating Bobby Allen by a shade. Benny Morris of Chicago had luck with him and managed to draw with Johnny Jordan.

If you want to give The Register a classified ad, telephone 87 or

Stramaglia Kayoes O'Brien In Minute

Crashing Right Hand Ends Bout In First Round; Iman Gets Draw With Lee By Great Finish

FIGHT RESULTS.

Rocco Stramaglia stopped Joe O'Brien, first round. Jack Iman, Harry Lee—draw. Scotty Glick won from Packy McMullen, decision. Ted Frenchie won from Blackie Rice, decision. Johnny Adams won from Neal Turner, decision. Johnny McGraw, Frankie Murphy—draw. Jimmie Lawton stopped Harry Hite, first round.

BY RINGSIDER.

A crashing right hand that traveled less than eight inches but which landed like the blow of a sledge hammer flushed on the chin of Joe O'Brien, Cincinnati heavyweight, ended the main event in the first round at the Huntington Beach arena last night.

There was no need for the bronzed Jim Jeffries, hero of countless ring encounters and the man who lost the world's heavyweight title to Jack Johnson at Reno, July 4, 1909, to toll the seconds over the fallen O'Brien.

Shaking his head sorrowfully at the figure on the floor, the huge Jeffries pointed to Rocco Stramaglia as the winner—Rocco, whom reports had it, gave the great Jack Dempsey two rounds of very, very interesting mauling.

While the huge crowd was jostling its way out of the arena, somebody was heard to say: "No wonder Dempsey chased him out of camp."

Climaxes Great Card.

There might be something in the fan's statement at that.

The main event climaxed the most thrilling, most spectacular and the best arranged boxing card that has been staged in Orange county. It was a wonderful send-off in the promoting game for the popular Kid Mexico, who, with Charlie O'Connor, has taken over the beach arena and will hold cards every Friday night.

The fight did not last long enough to allow the bugs to eat.

EVENING SALUTATION

Be generous and pleasant-tempered and forgiving; even as God scatters favors over thee, do thou scatter over the people. —Saadi.

A SHOCK TO THE COMMUNITY

Coming like a thunderbolt out of a clear sky came the news this morning of the untimely death of J. Howard Turner. Mr. Turner was a man with many friends, a likeable man. As a business man he was known to be of sound judgment, dependable and substantial.

There were few if any men in Santa Ana who were keener judges of values, and because of his wide knowledge of conditions he was consulted in business affairs by a wide circle of business friends.

Of a highly nervous nature, the daily routine business affairs may have worn upon Mr. Turner more than he was aware. A mental condition came on him which he could not control. In an hour of irresponsibility he took his own life.

In their bereavement, words to those who were near and dear to him are futile. Yet the knowledge that the community extends to them its sincere sympathy because of the death of their loved one may bring a bit of comfort in the days to come.

THE LIBRARY'S NEEDS

No one can doubt the advisability of early action toward giving Santa Ana a larger library building. Within a month the library's trustees will determine upon a plan of procedure, looking to the voting of bonds. Whether the plan be for remodelling the present building or for constructing a new building, the citizens of Santa Ana are quite likely, when the situation is explained to them, to ratify the action of the trustees.

Santa Ana as a city has spent only 1000 upon the library building. The original structure was paid for largely from the Carnegie Library fund. Local subscriptions were taken to help secure the property and building and put the grounds in shape. The funds for operating the library have come from the annual tax levy. With this money a strong, useful library has been built in this city. Books have been bought and the running expenses of the library have been met out of this tax levy. The total actual investment of city money in building and lot, however, reaches no more than a lone thousand dollars.

So Santa Ana can well afford to enter into an original investment in library property at this time. The present location is ideal, and it is not at all likely that the trustees will consider any proposal that may be made for changing it. So far as we know no suggestion for a change in location has been advanced.

In spite of various handicaps, the library has performed a remarkable service in this city. The number of books circulated has increased so rapidly, however, that the service cannot be kept up to the high standard maintained by the library unless adequate room is provided. The library ought to be put into a position to receive gifts of libraries. Cases should be provided so that the institution could receive rare and valuable books, some of which today would be given to the library were proper provision for their care made possible.

We are sure that the time has arrived for a bond issue for the library, and the trustees ought to receive the encouragement of taxpayers in their plan to bring about the submission of a bonding proposal.

LOOKING AHEAD A FEW YEARS

Building operations in Santa Ana this year have proceeded at a rate fifty per cent in advance of the 1922 rate.

The 1922 permits exceeded in value the 1921 permits by fifty per cent.

Building Inspector W. S. Decker has pointed out that the total permits for this year up to September 1 will exceed the total for all of 1922. The year's total in order to be fifty per cent beyond the 1922 total must reach \$5,625,000. There is indication that it will go to \$6,000,000.

Just to be "figgerin'" conservatively, we will put the 1923 total at \$5,625,000, and for the sake of "figgerin'" we will assume that the ratio of increase will keep up for some years to come. A fifty per cent increase in 1924 over 1923 would give us a total of \$8,437,500 for the 1924 building record. A similar increase for 1925 over 1924 would bring the 1925 total to \$12,655,250. And 1926 would make it \$18,984,375.

Anyone who wants to figure 1927 can do so. Looking ahead as far as 1926 convinces us that Santa Ana's unsolved problems ought to be solved as quickly as possible. Whether the exact proportion of increase keeps up, or grows or is decreased, the certainty faces us that Santa Ana has been growing rapidly, and today is growing rapidly and there is every reason to believe that it will continue to grow rapidly.

Is the Santa Ana of today doing everything it ought to do for the Santa Ana of tomorrow?

The small town is more apt to be derelict in infant care than the city. Yet because of the closer herding of people in the city, its mortality rate tends to stay high. In the small town where care is taken, the baby has a better chance. And as the small town comes to realize that every dollar spent on health education means a chance at life for some baby who might otherwise die before he had a real chance at life, more and more of such communities will be spending their dollars to save the lives of their babies.

TROLLEYS AND BUSES

Substitution of jitney busses for non-paying trolley lines is recommended as a state policy by the president of the New Jersey board of public utility commissioners. Not only would he relinquish the street car lines wherever motor busses can be operated more economically, but he would enlist the co-operation of municipalities to maintain adequate bus service, routing the bus lines to insure that they would supplement the trolley lines instead of competing with them.

This looks like an extremely sensible policy. It is in harmony with a tendency already marked in most parts of the country and needing only systematic extension and control to provide better transportation facilities than the public has ever had.

The motor car, because of its flexibility and its comparatively small overhead expense, can always serve suburbs and small towns where a trolley line would be impracticable. And here is indicated the

Santa Ana Register

SUBSCRIPTION RATES: Per year in advance by carrier, \$8.50; six months, \$3.50; one month, 60c; per year in advance, by mail, \$6.00; six months, \$3.25; by the month, 60c; single copies, 3c. Entered in Santa Ana postoffice as second-class matter. Established, November, 1906. "Evening Blade" merged, March, 1918.

Editorial Features

The Primeval Instinct

Stockton Independent

It is instinct with the savage to hate the thing he cannot understand—and it may be that this accepted fact holds the proper explanation for so many otherwise incomprehensible elements in our political and economic life.

The savage, we are informed, has not reached mental manhood, and the intelligence testers are quite sure that a very considerable proportion of those who enjoy the franchise is in the same boat.

Assuredly there are very many of us who manifest a savage distrust of an ability greater than our own. Often we are reluctant to entrust responsibility to those we know to be competent because we feel we could not trust ourselves in similar positions. We are instinctively afraid of excellence in any branch of industry or art, too frequently ready to side with the French revolutionary who sent Lavoisier, the discoverer of oxygen, to the guillotine with the memorable words, "The Republic has no need of chemists." Liberty, equality and fraternity—and particularly the second of the Terror's trinity—are enough for us.

The exploitation of ignorance, to serve political ends is no less criminal and much more common. Education in sound economics and sound politics is the only sure way to end such exploitation.

real function of the motor bus—that of a feeder of electric and steam lines rather than a ruinous competitor. Proper adjustment should mean prosperity for all.

It's a queer world, and not the least of the entertaining things in it are the magazines on subjects one knows nothing about. For a mental vacation we recommend music to the financiers, the beautiful home and country life periodicals to the scientists, science to the literati and outdoor life magazines to the woman who stays at home.

Why doesn't some enterprising automobile insurance concern start insuring pedestrians against collision?

Bull Fighting Is Made a Joke

San Francisco Chronicle

Spaniards who boo and mob punk bull fighters are not so very different from Americans who hoot and throw pop bottles at baseball players and umpires.

The bull fighter has fallen on bad times in Spain. First, his eye for the gate receipts became too keen. He couldn't be a hero and Shylock, too. Then Charley Chaplin laid a terrible curse on him.

A smart torero went into the bull ring wearing a Chaplin rig and killed his bull to the accompaniment of a fair imitation of the antics of the custard king.

That went big with the crowd. By the same token it go: the goats of the ethical bull fighters. They saw their gallant profession turned into a joke. Worst of all, the illusion of desperate courage, which was the torero's stock in trade, vanished when a clown delivered the fatal thrust while standing on his head.

The highbrow toreros have boycotted the bull fights where the Charley Chaplins appear. But the public, having been shown that bull fighting is vaudeville, prefers it that way, and the ancient heroes of blood and sand can only gnash their teeth.

The same thing happened once before in Spain, when Don Quixote showed that the venerable institution of chivalry was also nothing but vaudeville.

That buried chivalry for good under a great laugh. Will the Charley Chaplins kill bull fighting? Very likely. No people will care long for blood letting and death as part of a joke.

School Cost Comparisons

Riverside Press

Riverside schools are maintained on a more economical basis than those of any other city in our class in this part of the state except San Bernardino according to statistics compiled by City Superintendent Davis of San Bernardino. Mr. Davis after a careful review of reports sent him estimates that it costs the following amounts to educate each child through thirteen years of schooling from the kindergarten to the last year in the high school.

Riverside	\$1,173.40
San Bernardino	1,158.21
Santa Ana	1,238.05
Redlands	1,343.62
Long Beach	1,345.28
Colton	1,355.28
Fresno	1,478.56
San Diego	1,541.17
Bakersfield	1,646.71
Pasadena	1,848.35
Santa Monica	1,895.03

There is a range of over \$700 per pupil between the highest and lowest totals in this list.

Riverside schools certainly rank among the best in this part of the state in supervision, instruction, facilities and good records in scholarship; and we have reason for congratulation that in these days when economy is being urged such a record for efficient and business like administration has been established.

Militarism Curse to World

Pasadena Star-News

The trail of the monstrous serpent of militarism stretches across Europe. The World War ended officially, five years ago. But its dire fruits are poison to Europe yet. The unprecedented dislocations in the political, social and economic life of that continent persist because of the unparalleled horrors of that appalling struggle. Militarism, in four racking years, dipped its sword deep into rivers of human blood and wrote the ghastliest pages ever indited into the history of mankind.

In the wake of that great conflict have come disasters and distresses almost without number. Central Europe today resembles a madhouse. Bedlam conditions prevail. The future no man can foresee or foretell. An indefinite burden is entailed upon Europe because of the horrors of 1914 to 1918.

Militarism has written its worst. But that worst would be repeated with tenfold greater horrors, should Europe and the rest of the world fail to heed the gory lessons of the World War. The world must break down militarism or militarism will break down civilization and put mankind back into savagery and bloody chaos.

Editorial Shorts

California desires tourists. But we shall get ten tourists by making our highways safe to one as a result of politeness to law breakers. An immense majority of those who use our highways are decent people. Better cater to them. — San Francisco Chronicle.

That Body of Yours

By James W. Barton, M. D.

YOUR GROWING GIRL OF BOY.

I've often wondered if the man or woman who is fond of animals or flowers would permit them to grow with as little supervision as he gives his children.

The baby gets wonderful care as a rule, and the tiny tots are usually well looked after.

But what of the girl of twelve and the boy of fourteen?

At this time they are growing into womanhood and manhood.

Do you notice that as your girl and boy grow that they carry themselves properly?

Is the spine straight? Are the shoulders well back and even?

Do they eat sufficient vegetables, or do they fill up on meat and dessert?

Do they get outdoors at all, or do they stay in the house and read all their spare time? Do they go to the movies every night?

Have you, as a mother, taken your girl aside and explained all about the sex function?

Have you, as a father, done the same with your boy?

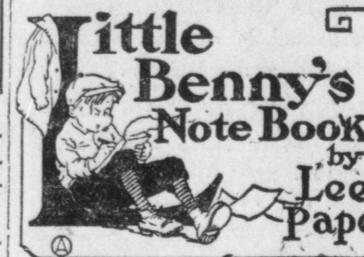

This important point is neglected or avoided by parents and the girl and boy learn about it often from improper sources.

And it is just here that so much can be done for your girl and boy. If at this time they are encouraged to go outdoors, to indulge in games, to go on "hikes" there will not be the time for introspection, and the tired bodies will seek rest and sleep.

This is a recognized factor in preparatory schools for boys and girls of the teen age.

Further, if you encourage your youngsters to get into games, to mix with other children their own age, they will overcome shyness, timidity, indecision and like things. They will learn to think and act for themselves, to have self confidence, and to give and take.
